# CHANDOK

COW AND GOAT MILK CHEESE

Chandoka is inspired by the mother and three aunts of Larry Hedrich, owner of LaClare Farms. The four sisters, Charmaine, Ann, Donna and Kathy, grew up on the farm where LaClare Farms is now located, on the east shore of Lake Winnebago. The farm was established by their parents Greg and Evelyn Ecker and was later passed down to the four daughters. They used the first two letters of each of their names and came up with CHANDOKA as kids.

In the fall of 2012, Chandoka Farm continued in the family and became the new home of LaClare Farms.

Chandoka is a part cow/part goat milk, mild fruity cheese with rich cheddary notes. The cow milk brings the fruity characteristics, as the goat milk develops sweet tangy notes creating Chandoka, a wonderfully flavorful cheese.
