CODE FORMAT

MANUFACTURE CODE DATE:

The diagram shows a product label for "12 Flavor™ Gummi Bears" with several callouts explaining the code format:

- Product UPC Code:** Points to the standard barcode at the top right.
- Made in USA:** Points to the "Made in USA" text.
- Mfg Date: 8201 (July 20, 2018):** Points to the Julian code "8201".
- Flavor and Texture Best By: January 20, 2020:** Points to the best-by date.
- For Example Purposes:** Points to the manufacturer information: "Albanese Confectionery Group, Merrillville, IN 1-800-736-0581".
- Albanese internal barcode/Lot number:** Points to the bottom barcode and the text "0000 Lot 201018201 12:38".
- Albanese Manufacturing Date & Flavor and Texture best by:** Points to the Julian code "8201" and the best-by date.

The lot number is defined using the Albanese internal identification barcode. In this example, the lot number is 201028201. The Mfg. Date and the last 4 digits of the Albanese internal identification barcode are the Julian manufacture code. For the example above 8201 is the Julian code which decodes as YJJJ, 8 meaning 2018 and 201 is the Julian code for July 20.
