

OVEN GUARD

OVEN GUARD is a specially formulated oven protectant safe for use on high-speed, accelerated cooking ovens, convection ovens, combi ovens, and microwaves. **OVEN GUARD** is not a cleaner. It forms a protective barrier between oven walls and cooking byproducts such as fat, grease, oil, food particles, etc. Proper use of **OVEN GUARD** greatly improves the life of your oven and makes cleaning easier. Apply on new ovens prior to use and after every clean up. Do not apply **OVEN GUARD** to any surface that will have direct contact with food.

NET CONTENTS: 1 QUART

DIRECTIONS FOR USE

1. Remove cooking tray or stone when oven has cooled down.
2. Oven should be properly cleaned with Noble Chemical **FORMULA D** prior to using **OVEN GUARD**.
3. Spray a thin layer of **OVEN GUARD** on all interior surfaces. DO NOT spray directly into the back of the oven or any interior areas where forced air comes out.
4. Wipe surfaces using a clean, dry cloth to remove excess liquid, leaving a thin film behind. Do not remove or rinse **OVEN GUARD** coating. Coating must remain during cooking.
5. Wash hands thoroughly after handling.
6. Replace cooking tray or stone. (DO NOT apply **OVEN GUARD** on the cooking platform/stone)
7. Oven is now ready to resume normal operations.

AVOID CONTAMINATION OF FOOD. DISPOSE OF EMPTY CONTAINER PROPERLY. NON-HAZARDOUS ACCORDING TO GHS, CLP, AND WHMIS.
