

# #148TLECCCLR

**DIRECTIONS:** This product must be used in accordance to the following directions by HVAC/R professionals only.

1. Turn off or disconnect power to unit being serviced.
2. Remove any heavy or matted soils that can be easily removed by hand.
3. Do not spray into electrical components. Protect all electrical components with plastic or aluminum wrap.
4. Shake well before using. Remove cap and point towards surface to be cleaned.

**Condensers:** Hold can 12 inches from air intake side of coils. Spray between fins to allow product to penetrate inner surfaces. Wait a few minutes for foam to liquefy and remove grease and grime within coil. For stubborn or heavy deposits, a repeat application may be necessary.

**Evaporators:** Spray foam onto coils to be cleaned. Rinsing is not required if using on condensation producing coils.-

5. Turn on or reconnect power to unit.
