

GARDE

INSTRUCTION MANUAL FOR PATTY PRESS 181HP1416

1

Place the press on a flat surface and lift the arm.

2

Load papers onto the metal posts on the base of the press.
(Posts hold 100 Sheets)

3

Place a ball of ground meat onto the patty liner.

4

Ensure the loop of the plastic liner is attached to the metal rod on the base. Place the liner on top of the ground meat.

5

Press down on the handle, forming the patty.

6

Lift up the handle, the liner will eject the patty as you pull up.

NOTE: Change liners as required. Ejector mechanism is adjusted with set screw in handle. Mold plates are interchangeable.
