# OPERATING INSTRUCTIONS

## Model: ALE-MT4510

### A. Seat height adjustment

To raise the seat height, stand up from the chair while lifting the lever (A) under the right side of the seat. To lower the seat height, lift the lever (A) while sitting in the chair.

### B. Tilt tension

Knob underneath seat adjusts angle and ease with which chair reclines to the different weights and strengths to different users. To increase tension, turn knob to the right. To release tension, turn knob to the left.

### C. Arm height adjustment

To adjust arm height, push the button on the outside of each arm and move the arm up or down. Release the button to set the height.
