Scotch-Brite™ Surface Prep Pads

High Performing & Environmentally Preferable*

Scotch-Brite™ Surface Prep Pads are engineered as environmentally preferable products.

Scotch-Brite™ Surface Prep Pads:

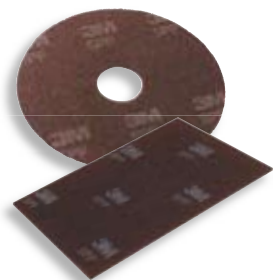

- Reduces the need for chemical strippers
- Use pad with neutral cleaner or water
- Helps reduce labor hours and material costs related to stripping floors
- Effectively removes floor finish, leaving a clean surface ready for recoating

*See back for details

The Environmentally Preferable Scotch-Brite™ Surface Prep Pads From 3M

No Chemical Strippers Needed

Scotch-Brite™ Surface Prep Pads require only neutral cleaner or water to effectively remove floor finish, preparing the floor for finish application. The product can be used on vinyl tile, marble, terrazzo, concrete and other floor types.

Cleaning Process

- Use Scotch-Brite™ Surface Prep Pads and 3M™ Neutral Cleaner or water with auto-scrubbers, swing machines, or rectangular floor machines
- If 3M™ Neutral Cleaner is used in scrubbing procedure, rinse floor with water prior to applying floor finish
- A flexible backer floor pad can be used to hold pad
- Once floor is dry, dust with 3M™ Easy Trap Duster before applying floor finish

Helps Improve Safety and Productivity

- No slippery residue from strippers
- No stripper cleanup on baseboards or nearby floors
- No chemical contamination on skin, clothes and shoes

Important Notice: User is solely responsible for determining whether the Scotch-Brite™ Surface Preparation Pad System is suitable for user's flooring and method of application. Some floors may release dust that could be hazardous to the user or bystanders. Eye, skin and/or respiratory personal protection equipment may be appropriate to reduce the risks associated with exposure to airborne dust.
