Scotch-Brite™ General Purpose Scouring Pad 96

Scotch-Brite®

Clean & Scour The Smarter Way

**New & Improved!
Now Faster Scouring!**

Scotch-Brite™ Hand Pads are for people who are serious about getting the job done.

For more than 50 years, Scotch-Brite™ has been a trusted brand in cleaning. As the inventor of scouring pads in 1958, 3M continues to innovate while others simply imitate. In side-by-side similar product comparisons, Scotch-Brite™ General Purpose Scouring Pad 96 removes two to three times as much baked on food from cookware. Our pad also lasts two to three times longer than comparable pads. That means you now have a smarter way to clean your kitchen equipment.

3M

All green pads are NOT created equal.

3M's new and improved Scotch-Brite™ General Purpose Scouring Pad 96 **scours 2 to 3 times faster and lasts 2 to 3 times longer** than comparable medium-duty green scouring pads. Non-rusting and resilient, this synthetic pad replaces steel wool so it won't leave metal slivers in hands or food.

Effective for removing food soil as well as grease, carbon and hard water stains from most "back of the house" surfaces including:

- Pots & pans
- Cooking utensils
- Kitchen & maintenance equipment
- Stainless steel surfaces
- Baseboards & floors

Not recommended for:

- Highly polished stainless steel
- Non-stick surfaces
- Fine china

Care instructions:

1. Use dish sprayer to rinse excess food debris from pad.
2. Hand wash pad in soapy water or soak in cleaning solution to help remove stubborn food debris and grease.
3. Rinse pad with clean water.
4. Squeeze excess water out of pad, set it aside and allow it to dry.

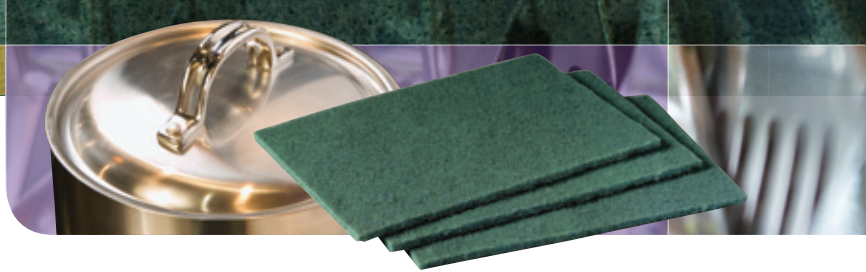

Also dishwasher safe!

You can trust the Scotch-Brite brand to deliver quality and consistency in performance, size and durability.

Scotch-Brite™ General Purpose Scouring Pads used in 1 year.
Approximately 122 pads

2 to 3 times more durable than comparable medium-duty green scouring pads!

VS.

Comparable medium-duty green scouring pads used in 1 year.*
Approximately 365 pads

*Assume usage of one pad per day.

Help Save Time, Money and the Environment by:

- Reducing labor cost
- Purchasing less product
- Putting fewer pads into the waste stream
