

Scotch-Brite™ Dual Purpose Scour Pad 96HEX

Frequently Ask Questions

1. What is the Scotch-Brite™ Dual Purpose Scour Pad 96HEX?

The Scotch-Brite™ Dual Purpose Scour Pad 96HEX is a powerful cleaning pad. It features a yellow raised power dot side that aggressively scours away tough messes with less elbow grease. The smooth gray side scours away fine particles and grease, leaving no residue and a polished finish.

2. What is the Scotch-Brite™ Dual Purpose Scour Pad 96HEX made of?

- Non-rusting synthetic fibers
- Resin
- Abrasive minerals

3. Is the abrasive mineral different?

No, the mineral used in the 96HEX pad is similar to the mineral used in other (3M) medium duty hand pads.

4. What applications is the pad designed to be used for?

It is designed for use in medium to heavy duty general cleaning applications such as cleaning pots and pans, cooking appliances and utensils, kitchen and maintenance equipment, and stainless steel.

5. What are the productivity advantages?

- The yellow power dot side removes baked-on food soil faster
- The yellow power dot side rinses clean easier
- The gray smooth side removes fine soil and polishes faster
- Only one scouring pad needed for multiple jobs.

6. Can this pad be washed through dishwasher?

Yes

7. How long will it last?

The 96Hex is designed to retain full scouring power through repeated uses. The exact pad lifetime will vary depending upon use. In general, the 96Hex can be expected to outlast other medium duty scouring pads.

8. When should I discard the pad?

When the power dots start to wear down on the yellow side and the smooth side begins to lose its black color, it is a good time to replace the pad.

9. Can this pad be used on delicate (e.g. Non-stick, ceramic) surfaces?

It is not recommended to be used on surfaces that can be easily scratched or damaged, such as non-stick, ceramic or other delicate surfaces.

10. Can this pad be use on hot surfaces?

Yes, up to 350°F or 177°C

11. Can this pad be used to clean flattop griddle?

It is not recommended to be used on the cooking surface of a flattop griddle.

12. Is the Scotch-Brite™ Dual Purpose Scour Pad 96HEX HACCP certified?

Yes, (To be certified)

13. What are some common issues observed?

- Scratching—although most customers are willing to tolerate some scratching of stainless steel by medium duty scouring pads, it should be noted that like its analogs, both sides of the 96Hex pad will scratch stainless steel. Scratching may be more severe on softer surfaces such as aluminum, ceramic, etc.....
- If the 96Hex is run over a sharp edge or surface, the power dots can be torn off. In that case, remove and dispose of the dislodged power dot(s) and continue using the pad until it loses abrasive power.

14. How does one dispose the pad?

Used and worn out 96Hex pads can be disposed of in the regular trash.
