

WORKSHOP[®] MD

WET/DRY VACS

With over 45 years of Wet/Dry Vac engineering and manufacturing excellence under our belts, we produce quality vacs, accessories and filters for commercial users, construction professionals and do-it-yourselfers. WORKSHOP Wet/Dry Vacs deliver unmatched power, performance and durability and include thoughtful features that make our vacs easier and more convenient to use. Multiple filtration options, including HEPA[‡] Media, dust collection bags and our patent-pending Wet Filter help keep the environment free of harmful contaminants, make debris disposal more convenient, and vac components free from damage. Our patented Qwik-Lock[®] filter fastening system makes filter cleaning and replacement a breeze...no need for tools, caps or fasteners.

WORKSHOP innovation doesn't stop at the filter. The patent-pending Dual-Flex[®] locking hose allows for 180° flexibility at both hose-ends, resists crimping and collapsing and remains securely attached to the vac during use yet detaches quickly and easily for storage. To make your clean-up time even faster and more trouble-free, try the new Roll Tight[™] locking sleeve which makes loose wand and accessory connections a thing of the past.

Whether its a general purpose vac, a high-powered, portable vac, a Contractor Vac or our Mobile Vac Station, with WORKSHOP...your mess has met its match!

[‡] HEPA – High Efficiency Particulate Air

Because after all, isn't that what it's really all about? Whether you're cleaning up the job site mess, a flood from a leaky appliance, your dusty garage or a cluttered car, you need a WORKSHOP Wet/Dry Vac to get the job done quickly and efficiently.

See Website for Details.
www.WORKSHOPvacs.com/Warranty

Gallons indicated reflect drum volume, not necessarily collection capacity.
Actual capacity dependent upon type of debris collected, condition of filter, and other factors.
Peak Horsepower represents a level at or below the maximum horsepower output of an electric motor tested in a laboratory using a dynamometer.
All specification data subject to change without notice.

COMPACT VAC
WS0250VA
1.75
 PEAK HP

2.5
 US
 GALLON

1 1/4"
 DIAMETER

This compact, lightweight vac is so easy to carry and store, and really handy for quick pick-ups around the house.

Includes: Vac, Hose, Utility Nozzle, Car Nozzle, Filter Bag

PORTABLE VAC
WS0300VA
3.5
 PEAK HP

3
 US
 GALLON

1 7/8"
 DIAMETER

With the power of many vacs three times its size, a unique built-in dust pan feature and unmatched portability, the 3 Gallon Portable Vac is the ideal vac for auto, home, job site, and workbench cleaning.

Includes: Vac, Hose, Car Nozzle, Standard Filter, Dust Bag

PORTABLE VAC**WS0400VA****5.0**

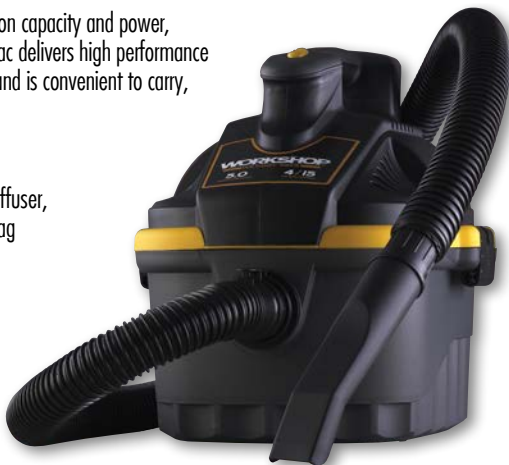

PEAK HP

4US
GALLON**1 7/8"**

DIAMETER

With a bit more collection capacity and power, the 4 Gallon Portable Vac delivers high performance in a compact package and is convenient to carry, transport and store.

Includes: Vac, Hose, Car Nozzle, Muffler/Diffuser, Standard Filter, Dust Bag

**PORTABLE DETACHABLE BLOWER VAC****WS0400DE****6.0**

PEAK HP

4US
GALLON**1 7/8"**

DIAMETER

Two tools in one, the powerhead of this highly portable 4 Gallon Vac easily converts to a powerful hand held blower and is still easy to carry, transport, and store.

Includes: Vac, Hose, Utility Nozzle, Car Nozzle, Locking Blower Wand, 2 Extension Wands, Standard Filter, Dust Bag

STAINLESS STEEL VAC

WS0400SS

2.5

PEAK HP

4

US
GALLON

1 7/8"

DIAMETER

This portable stainless steel vac tackles the messes around your home and garage, and looks great doing it.

Includes: Vac, Hose, Utility Nozzle, Wet Nozzle, 2 Extension Wands, Filter Bag

CONTRACTOR VAC

WS0450VA

5.0

PEAK HP

10' Contractor Locking Hose
WS17823A

7' Dual-Flex® Locking Hose
WS25020A

CARTRIDGE FILTERS

WORKSHOP cartridge filters not only protect the vac's internal components from damaging debris, but also prevent harmful contaminants from re-entering the atmosphere. There's a filter to stop all sorts of debris, from everyday dirt to drywall dust to pollens and allergens. There's even a WET ONLY filter for the most demanding, high volume water-borne debris situations.

Best For

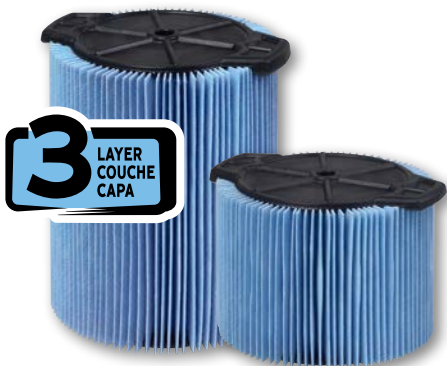

- Sawdust
- Typical Basement, Garage, or Car Dirt

WS21200F

WS11045F

STANDARD FILTERS

Captures particles down to 5 Microns @ 95% Efficiency

Best For

- Same as Standard Filter Plus...
- Drywall Dust
- Cement Dust
- Cold Ashes, Fireplace, BBQ Grill

WS22200F

WS12045F

FINE DUST FILTERS

Captures particles down to 1 Micron @ 99% Efficiency

Makes installing and removing your filter quick, easy and secure.

WS23200F

WS13045F

HEPA MEDIA FILTER

Captures particles down to 0.3 Microns @ 99.97% Efficiency

Best For

- Same as Standard Filter Plus...
- Pet Dander
- Pollens
- Allergens
- Fine Indoor Particles
- Upholstery
- Dust Mites
- Mold Spores
- Dryer Lint
- Furnace Filter

WS24200F

WS14045F

WET ONLY FILTER

The wet filter has a foam outer layer with structural resin core designed to add protection for your vac during high volume liquid pick-up.

For

- High-Volume Liquid
- Water-Borne Debris

DUST COLLECTION BAGS

Dust bags make collection and disposal of dry debris cleaner, easier and more convenient.

WS32045F

Fits 3-4.5 Gallon Vacs
except WS0400SS

WS32090F

Fits 5-9 Gallon Vacs

WS32200F

Fits 12-16 Gallon Vacs
except WS1200DE &
WS1600VA

FILTER BAG

WS01025F

Fits 2.5 Gallon Vacs plus
WS0400SS & WS0500VA

FILTER MAINTENANCE

Cleaning or replacing your filter regularly helps minimize motor load and extends the life of your vac. We recommend changing your pleated paper filter at least twice a year.

AIR MOVER**WSI625AM****1625**CFM
2200 MAX**3**

SPEED

Featuring three speed choices, the WORKSHOP Air Mover provides high volume air circulation to dry wet carpets, floors, entrances, etc.

3 Speed:

- Hi - 3.0 Amp
- Med - 2.7 Amp
- Lo - 2.4 Amp
