#274LCNBGW

# Heavy-Duty Upright Five Brush Electric Glass Washer

Rid your glassware of unsightly lipstick marks, fingerprints, and smudges with this electric glass washer! Made to deliver outstanding performance, this washer is durably built for efficient washing of your different types of glassware. It's perfect for use at your bar, pub, or restaurant that cycles through a lot of glassware every day.

## Durable Construction

Designed to sit partially submerged in your sink, this powerful glass washer is made of heavy-duty stainless steel and bronze bearings that deliver outstanding performance and reliability.

## 5 Brushes Included

This model comes with four 6" brushes and one 7½" brush so you can start using it right away without ordering brushes separately.

#274LCNBGW

# Heavy-Duty Upright Five Brush Electric Glass Washer

## 1/3 HP Motor

Featuring a powerful 1/3 hp motor, the brushes run automatically to quickly scrub the interior and exterior of glassware.

Its motor is covered by a protective top guard, ensuring water won't damage the electrical components.

## Technical Data

Dimensions	8" W x 12" L x 18" H
Number of Brushes	5
Brush Length	6-7½"
Hertz	60 Hz
Voltage	120V
Horsepower	1/3 HP
Power Type	Electric
Type	Upright Glass Washers

## Replacement Parts

#274BARBRUSH6	6" Standard Glass Washer Brush
#274BARBRUSH75	7½" Standard Glass Washer Brush

## Easy On/Off Toggle

The on/off toggle switch makes this glass washer simple to use. Plus, it's covered to protect sensitive electrical components.

## Use with Liquid or Powdered Detergent

If you are using a powdered detergent, the powder must first be dissolved in water 120° F or hotter. Failure to do this will void the warranty.

### Recommended Products

147LCDETLSPK / 147LCDETL5 Last Call Low Suds Powdered Bar Glass Cleaner

These low-sudsing formulas and medium to heavy-duty cleaning powders penetrate and suspend grime to prevent re-depositing.

The cleaners are intended for electric brush cleaning systems.

### How to Use Your Electric Bar Glass Washer

#### Sink 1: Wash

- Place your glassware in the first sink
- Use warm water and 1 oz. of Liquid Detergent (item #147LCDETLSPK / 147LCDETLIS)
- Turn on machine
- Wash each glass with the center brush

The center brush cleans the inside of your glass, while the outside brushes wash the excess from the exterior.

#### Sink 2: Rinse

- Place your glassware in the second sink
- Use clean water to rinse your glassware thoroughly

#### Sink 3: Sanitize

- Place your glassware in the third sink
- Soak the glassware in warm water and use a chemical sanitizing solution
- Refer to the directions on your sanitizer for more information
- Alternatively, you can use hot water above 171° F
  - If you choose this method, soak the glassware for a minimum 30 minutes

#### Air Dry

Let the sanitized glassware dry on a clean drain board.  
Do not towel dry.

Clean with  

VS

Nearly Clean

- More beer per barrel
- Saves money
- Solid head
- No bubbles

- Imparts odors and tastes
- Less visual appeal
- Loses head rapidly

### Did you know...

Nearly clean isn't clean! Clean glass gives a consistent 1/2" head of beer - giving you an additional 24 glasses of beer per barrel!
