

Performance and value at the 4-front.

High performance holding and energy efficiency at a lower initial investment.

- Innovative Insulation Armour™ Plus design— Polymer panels with foamed-in-place polyurethane insulation retain heat and save energy.
- Top-mounted, ergonomic controls and high quality Type 304 stainless steel for easy cleaning and long-term durability.
- Armour panels have molded-in handles and act as a full-body bumper for improved handling and protection in mobile applications.

Metro C5 4 Series

with *Insulation Armour™ Plus*

Metro's innovative hybrid polymer - stainless steel design exceeds traditional double wall fiberglass cabinet construction by replacing the costly exterior layer of sheet metal with foamed-in-place polyurethane insulated polymer panels. Performance and value at the 4-front of innovation, Insulation Armour™ Plus provides superior energy efficiency, built-in vertical handles, and full body bumper protection at the right price!

Innovative Design.

Superior Energy Efficiency

Polymer panels with foamed-in-place polyurethane insulation retain heat and save energy.

Robust, yet easy to move.

Strong stainless steel construction on the inside, durable armour panels on the outside provide protection from impact and ergonomic grab points for easy handling.

Ergonomic and functional.

Ergonomic user-friendly controls are mounted at the top of the cabinet for improved access, to help prevent damage, and easy cleaning.

Slide Options

2 systems to choose from that hold a variety of pan sizes. Universal option for maximum pan flexibility or lip load to maximize 18x26 sheet pan capacity.
