CHAIR MAT RESOURCE GUIDE
EVERYTHING ABOUT CHAIR MATS

EVERY OFFICE NEEDS A CHAIR MAT

Chair mats are more than a piece of plastic under your chair. Chair mats protect floors... and a floor's warranty. Most manufacturers of flooring require use of a chairmat under a chair with casters, or else the warranty is void. Chair mats also provide a smooth rolling surface. Try rolling on a carpet. It takes 78% percent more energy to move a chair on carpet than on the smooth surface of a chairmat. ES ROBBINS chair mats provide the best quality, best performing ergonomic solution for your work area.

WHY CHAIR MATS

FLOOR PROTECTION

Protect floors from damage and costly repair or replacement

EASE OF MOBILITY

Roll easier with less stress on joints and back

2005

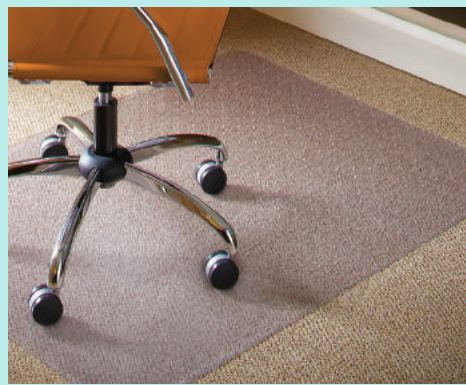

Revolutionary hand and carpet friendly AnchorBar® chair mat patent developed

2007

Unique hanging chair mat Cascade merchandiser design patent issued

Dimensions™ Linear

Natural Origins®

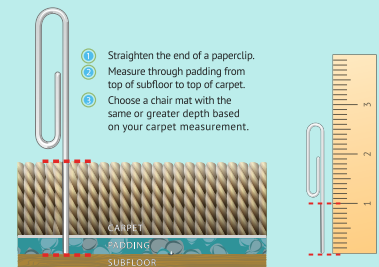

EverLife®

HOW TO CHOOSE A CHAIR MAT

1 FLOOR TYPE

Carpet or hard floor?

- When choosing a chair mat for carpet, check carpet depth. ES ROBBINS has an expansive range of mats available for a variety of carpets; from flat pile carpets with no padding to the plushiest carpet over 1" thick. If in doubt, choose a chairmat for a higher pile carpet.
- Chair mats for hard floors protect laminate, wood, tile and other hard flooring.

2 SHAPE AND SIZE

Consider your movement? Are you mobile or limited?

Do you have a traditional desk or does it have multiple sides?

MOST POPULAR SHAPES:

Lipped

Fits compactly under most desks. Most popular shape.

Rectangle

More versatile shape allows for maximum mobility.

Workstation

Contoured design fits between L-shape, U-shape or Corner workstation

MOST POPULAR SIZES:

36" x 48", 45" x 53", 46" x 60" and 66" x 60"

3 USAGE

Time and weight?

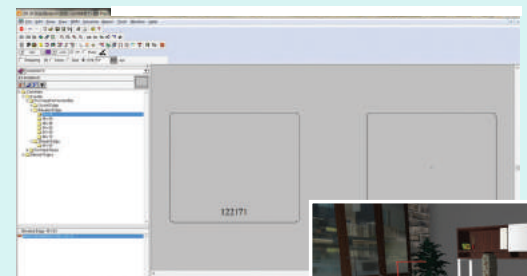

For 8+ hour usage, select a thicker pile mat

If you weigh over 200 lbs, choose a thicker pile mat

2020™ Design your next project with
ACCREDITED ES ROBBINS quality ChairMATS
MANUFACTURER using 2020 GIZA

Every rolling office chair needs a chair mat to provide floor protection as well as ergonomic benefits.

ES ROBBINS core line of chair mats are now on 2020 GIZA. ES ROBBINS chair mats were the first with GREENGUARD Gold certification as well as the first made with renewable plant content. Chair mats are available in a variety of shapes and sizes.

2020 GIZA is an easy-to-use software for building quotes and presentations to help grow business.

When designing your next office, remember to add ES ROBBINS chair mats.
