

EDGE SERIES | RELIABLE

For versatile environments, ease of use and proven reliability.

GIVE YOUR EMPLOYEES THE EDGE THEY NEED.

THE HOBART EDGE SERIES SLICERS

Efficient. Economical. Easy to clean. Just three of the many ways it can give your employees—and your operation—the edge you need to keep customers coming back for more. And with the added protective features, you'll feel good about having it in the back of the store too.

The Edge Series Slicers pack medium-duty slicing, an average of 4 hours or less per day, into an economical package:

- Large product tray and slide rod for feeding larger loaves
- ½-H.P. motor to slice cheese and meat with no shredding
- Wide carriage span, delivering a smoother glide
- Rear-mounted, removable meat grip for easy cleaning
- Removable, ceramic sharpening stone to let you sharpen and hone in 15 seconds, and clean up just as quickly
- Sanitary, anodized aluminum base to help protect against bacteria growth

Edge12

Our customers asked for a stronger motor. We delivered. Our customers said that slicing larger products would be nice. We delivered. Our customers asked us to make it easier to clean. As you might expect, we delivered. The result? Medium-duty slicers that deliver both features and performance.

Meets the requirements of the NSF Standards.

Not only is the Edge Series easier to use and capable of handling larger loaves, but it also offers added protection for every slice.

Edge13

MOTOR	1/2-H.P. Knife-driven motor Single speed
DRIVE SYSTEM	Poly V-belt Longer belt life Quieter operation Reduced parts and service time
KNIFE	EDGE12: 12"-diameter chrome-plated, carbon-steel knife EDGE13: 13"-diameter chrome-plated, carbon-steel knife
SHARPENER	Top-mounted ceramic stone Single action to sharpen/hone in just 15 seconds Removable and warewash safe for easy cleaning/sanitation
GAUGE PLATE INTERLOCK (EDGE13 only)	Ensures that the gauge plate must be closed to remove the carriage for cleaning and cannot be opened when the carriage is removed
PROTECTIVE FEATURES	No Volt Release – Ensures that if there is a power loss, slicer must be restarted before operation can continue Permanently mounted ring guard Rear-mounted, removable meat grip
BASE	Sanitary, anodized aluminum base Single piece Durable finish
SANITATION	Removable carriage system No cracks or crevices Anodized aluminum carriage and knife cover Removable slice deflector
STANDARDS	 
WARRANTY	One year parts and labor

Even oversized loaves fit easily.

Cheese doesn't shred; it slices evenly.
