

Fieldstone™

by  **WALCO**

THE LATEST FINISH IN FLATWARE

SPRING 2018

Fieldstone™

Walco Fieldstone is an application that gives flatware patterns and select holloware items a unique burnished finish. Once applied, the result is a satin antique farm or industrial chic, rustic or casual appearance. Change any of our upscale 18/10 flatware patterns or beverage servers with this process. It is performed at our Utica Cutlery Company factory in Utica, New York, at the base of the Adirondack Mountains. Large vibrating machines are loaded with hundreds of marble size industrial stones and pressurized water. When the flatware or holloware is removed, we have the Fieldstone finish. Flatware patterns and select holloware in 18/10 only are candidates for this process.

NOTE: PAGE SHOWS ORIGINAL FINISH ON LEFT AND FIELDSTONE ON RIGHT.
