

Horizon™ Icemakers

Exclusive Satellite-fill™ technology

Satellite-fill delivers ice through a tube; the best way to auto-fill any dispenser

Enhance customers experience

- Remove icemaker heat and noise from fountain area
- Present a more attractive fountain area – icemaker mounts anywhere to locate it out of customer's view
- Eliminate disruption to customers – no waiting while employees are filling dispenser

Use your valuable space more efficiently by relocating the icemaker to a back room.

Present an upscale fountain area with Follett Vision dispensers

Lowest cost to own & operate

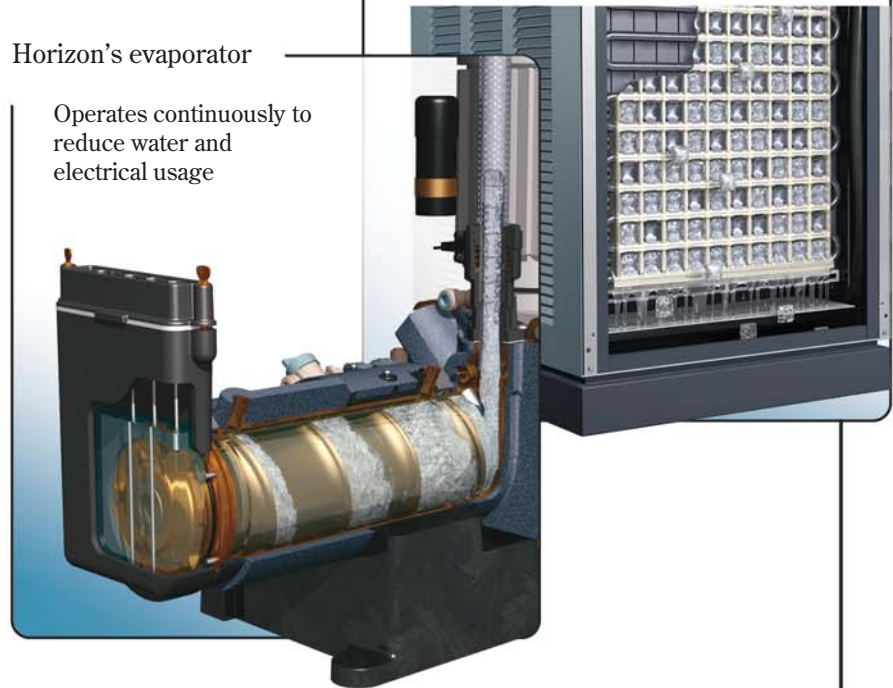

- Reduce water consumption by over 30%
- Reduce electrical costs compared to most cube-type ice machines
- Reduce labor costs
 - Clean dispensers faster without icemaker on top
 - Clean icemaker in half the time
 - Eliminate labor required to transport ice to dispenser
- Reduce installation cost
 - Remote condenser isn't required to remove heat & noise

Cube evaporators

The ice making system must reverse and melt ice to release cubes – uses more water and energy

Horizon's evaporator

Operates continuously to reduce water and electrical usage

Reduce liability by improving safety & sanitation

- Reduce potential for contamination – less ice handling
- Sanitize dispensers more thoroughly – full access to ice storage area without icemaker on top
- Reduce risk of slips and falls – no spilled ice
- Reduce strains – eliminates need to carry and lift heavy buckets of ice

“Cleaning and sanitizing is so much easier without an icemaker on top of our dispenser!”

Ice Manager™ diverter valve system

The newest innovation in Satellite-fill technology – fills two dispense points with one ice machine.

Manages the ice so you don't have to

- Ice delivery based on demand delivers ice when you want it, where you want it
- Fewer ice machines to purchase and maintain
- Use your production capacity more efficiently

Satellite-fill is the only way to auto-fill drop-in dispensers

Chewblet® ice

Your customers love Chewblet ice!

- Up to 90% prefer it over cube ice
 - Easier to chew
 - Better size and shape
- Up to 30% will buy more fountain drinks when they have Chewblet ice
- Many will actually go out of their way for this ice

You'll love the increased profits!

- Increases sales of high margin fountain drinks
- Superior drink displacement lowers drink costs
- Increases profits from packaged ice programs by selling bagged Chewblet ice

Plus, you get the same drink and coldplate performance as cube ice.

"I've been going to (my local drive-thru restaurant) on my lunch hour almost every day for the past year just to get Chewblet ice"

"I fell in love with Chewblet ice!

It's chewable, tastes great and makes my drink fun"

"My family loves the ice so much that I bring home a bag and keep it in the freezer for the kids"

Engineered for reliability

- Three year parts and labor warranty on entire machine with 5 year compressor parts warranty
- Designed for enhanced performance and machine life
 - Automatic self flushing prevents buildup of impurities
 - Advanced auger design reduces icemaking loads by over 80%

Easy cleaning and sanitizing

- Push button operation – just add cleaning or sanitizing solution, the ice machine automatically cleans, flushes and returns itself to service
- Clean icemaker in half the time

Horizon icemakers also work in traditional top-mount applications

Horizon icemakers with Satellite-fill eliminate ceiling constraints – get more storage capacity for the same floor space
