

Green Drain™

Waterless Trap Seal for Floor Drains

All Trap Primers Fail Choose the Alternative

4"

model GD4

Available in 2", 3", 3-1/2" & 4"

3 1/2"

model GD35

1. Punch out drain sizer
2. Remove drain strainer
3. Insert into drain to determine size of Green Drain™.

3"

model GD3

2"

model GD2

WATER FLOWS DOWN, BUGS, ODORS, & SEWER GASES STAY OUT

Plumbing installations including a trap primer can be expensive to install initially and often require maintenance due to failure. When a trap primer fails, sewer gas, bugs, and unpleasant odors can enter the building through the drain. Green Drains' patented, easy to install design solves these common issues as water can freely pass down through the Green Drain, but gases, bugs, and odors are blocked by the one way seal. The Green Drain is an eco-friendly solution compared to the expense and hassles associated with trap primers.
