

STUDIO

Hall China invites you to the artist's Studio.

One-of-a-kind Studio is where beauty meets individuality. With the informal look and feel of handmade pottery, every piece has slight irregularities and variations, delivering a fashioned-from-clay aesthetic with unique accents. From the slight bumps and rolling surfaces of the bowls to the subtle accents on plates, Studio creates a casual, comfortable atmosphere. Designed for demanding foodservice environments, Hall's Studio collection has a non-porous body and high-fired durability.
