

Key Cabinets

By FireKing

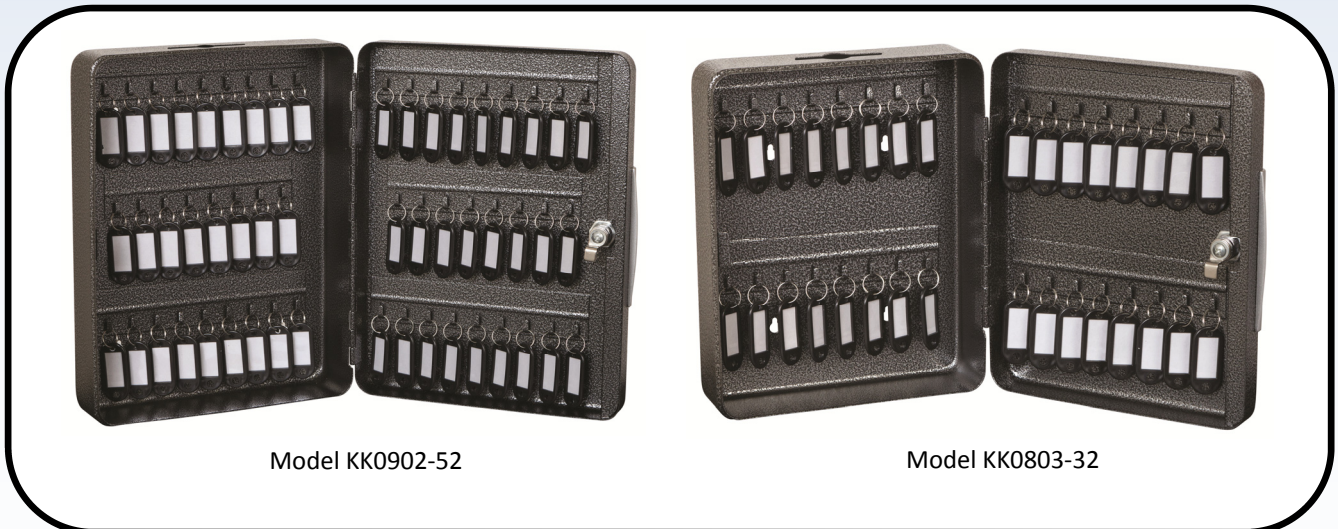

KK0903-100

The hook style key cabinet line is made of heavy gauge steel designed with a unique drawn formed seamless body and locks which resists prying or tampering. Each cabinet features a unique key drop slot for afterhours security. The cabinet doors are fitted with a convenient door plate for easy

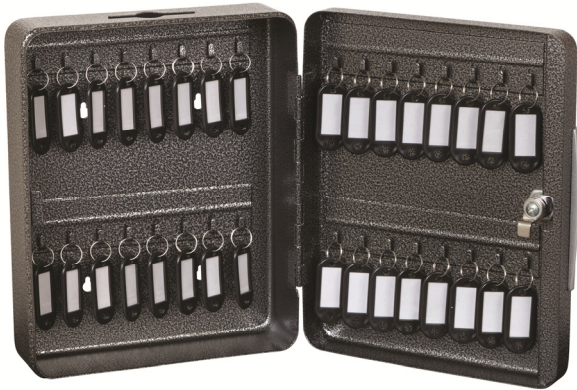

opening and closing. Hook style black key tags with plastic protected writing surfaces, and key rings are provided to store and organize your keys. Handsome two-tone design with rich scratch resistant Silver Vein powder coat enamel.
