SIMPLE SOLUTIONS THAT STREAMLINE COMMUNICATIONS BETWEEN GUEST, STAFF AND MANAGEMENT

Our solutions help simply operations so you can focus on what really matters - your business. Bring peace of mind to your organization with LRS on-site communications, guest and staff paging solutions, tracking systems and customer surveys.
THE MOST COMPLETE AND ADVANCED GUEST PAGING TRANSMITTER ON THE MARKET

The patented Freedom Plus guest paging transmitter from LRS is designed to provide your business and guests with more freedom when managing wait times. The new function of this transmitter is its ability to contact guests via text messaging, phone messaging or LRS pagers.

Benefits
- The Original Coaster pager that started the guest paging revolution
- Increase sales by reducing customer No-Shows and Walk-Aways
- Eliminate expensive and time consuming mobile phone paging fees
- Have an organized and professional customer waiting list
- Give your customers the freedom to walk around while they wait
- Easily find your customers with the push of a button at No-Cost
- Faster service leads to more satisfied customers and sales increase
- Our pagers do not have speaker holes that accumulate bacteria
- No more loud and unprofessional customer name calling
- Use customized labels to promote your products and services
- Reduce your monthly labor overhead costs
- Affordable guest paging solution ideal for any type of business
- Eliminate guest crowding around the hostess stand

LRS OFFERS THE WIDEST AND MOST ADVANCED GUEST PAGERS IN THE INDUSTRY

With our 20 years of experience, focus and innovation, LRS continues to redefine the entire on-site paging industry with customer-driven features such as Shock-Absorbing bumpers, Water-Resistant designs and Lexan cases. LRS now boasts that our pagers are the most advanced and durable in the industry.

Unlike other pagers on the market, all LRS pagers do not have any speaker holes that may accumulate food and liquids over time and harbor dangerous bacteria. Our guest pagers are also completely sealed making them easy to clean.
INSTANTLY CONTACT YOUR STAFF MEMBERS WITHIN YOUR BUSINESS OR ORGANIZATION AT NO-COST

The new patented Freedom Call Staff Paging transmitter is designed to provide your staff the ability to contact each other within your organization, with the touch of a button. The new transmitter function is its ability to contact staff via text, phone or LRS pagers. Simply type your message, enter the staff’s pager number and press enter. With this system, it ensures that you can reach everyone no matter where they are within your facility.

Benefits
- Affordable staff paging solution ideal for any type of business
- Easily page your staff with the push of a button at No-Cost
- Cost efficient, effective and affordable solution with no monthly fees
- Auto-Alarm will page staff to remind them to perform certain tasks
- Send instant customized messages to all your staff at No-Cost
- Eliminate expensive and time consuming mobile phone paging fees
- Built-In Anti-Theft, Auto-Locate, Range-Test and Tracking-Mode
- LRS uses a proprietary protocol that keeps repeating your signal
- Eliminate loud and intrusive overhead paging
- Reduce your monthly labor overhead costs

KEEP YOUR STAFF OUTSIDE WITH THE CUSTOMERS WHERE THEY CAN SELL MORE

LRS Server Paging Systems are the smartest wireless server pagers on the market. They let your servers spend more time with guests instead of waiting in the kitchen for orders.

When an order is ready, the kitchen staff press one button on the transmitter and it will page the servers so they can pick it up. Since servers are now spending more time on the floor instead of the kitchen, you get faster table turns, better service and higher check averages.

Benefits
- Keep staff on the floor with guests to increase check averages
- Deliver food faster and while still hot and fresh
- Increase drinks & desserts sales and improve customer service
- Eliminate congestion in the kitchen and improves server efficiency
- Faster service leads to more satisfied customers and sales increase
- Eliminate costly and time consuming food reheats
- Managers are paged when a server has not picked up an order
- Faster service and larger bills means better tips for the servers
- Duty-Page automatically notifies staff of scheduled tasks
- No more shouting or noisy server bells
- Simple One-Touch operation transmitter
- Reduce monthly labor overhead expenses
ENSURE THAT EVERY CUSTOMER REQUEST IS MET QUICKLY AND EFFICIENTLY

Lying on the beach or sunbathing by the pool, your guests should never have to get up to find a waiter so they can order their food and drinks. With the Beach Butler Waiter Calling System, they no longer have to. They simply push a button and the waiter is instantly paged.

Benefits
- Re-Page feature reminds staff where service is needed
- Automatically pages the manager if there is a delay in service
- Managers can now track and improve staff response time
- Excellent solution for out of sight umbrellas and seating zones
- Instantly increase your food & drinks sales
- Reduce your monthly labor cost since fewer staff are now needed
- Give your guests the ultimate V.I.P service
- 100% Water-Proof with Tamper-Resistant design
- Pages the manager when batteries are low so no request is missed
- Auto-Shut helps increase battery life by turning off the unit
- Earn more revenue by having sponsor labels placed on units
- Easily attaches to any umbrella, table or sunbed with various options

Poolside - Beach - VIP Area - Kids Pool - Bungalows - Jacuzzis

- Easily attaches to any surface
**PRONTO**

**INSTANTLY IMPROVE YOUR STAFF RESPONSE TIMES AND CUSTOMER SERVICE**

Pronto is a compact Push-For-Service transmitter that can instantly improve your staff response times, raise customer service levels and increase productivity.

When your customers require service, they simply push one of the customized buttons on the Pronto transmitter notifying your staff immediately. Pronto can also be used by your staff members to page each other when they need assistance. Pronto will save you time and money because fewer staff per shift are needed, which will reduce your monthly labor costs and overheads.

*The Pronto transmitter is available in 1 or 6 buttons.*

**Benefits**
- Improve Customer-Staff interaction and staff efficiency
- Instantly increase your food & drinks sales
- Give your guests the ultimate V.I.P service
- Excellent solution for out of sight tables, seating areas and floors
- Re-Page feature reminds staff where service is needed
- Automatically pages the manager if there is a delay in service

- Durable Tamper-Proof design

---

**COASTER LITE**

**CUSTOMERS CAN NOTIFY STAFF WHEN THEY REQUIRE SERVICE WITH THE PUSH OF A BUTTON**

This simple and efficient push-button transmitter gives your customers the ability to call for assistance without leaving their location whether that’s a restaurant table, movie theater or bar. Coaster Lite is easy to use and can be attached to any surface.

Coaster Lite is low-cost, rechargeable and ideal for restaurants, bars, movie theaters and nightclubs. When your customers need service, they simply push the button illuminating the Coaster. Your servers see the red glowing Coaster and assist the customers with minimal interruption. Unlike Coaster Caller pagers, the Coaster Lite does not flash or beep so it won’t interrupt anyone.

**Benefits**
- Ideal for bars, comedy clubs, cinemas and nightclubs
- Improve Customer-Staff interaction and staff efficiency
- Instantly increase your food & drinks sales
- Does not disturb neighboring tables in quite environments
- Reduce your monthly labor cost since fewer staff are now needed
- Earn more revenue by having sponsor labels placed on units
- Water-Resistant for easy cleaning
- Easily attaches to any surface
- Durable Tamper-Proof design
THE NEW PATENTED WAIT-LIST AND TABLE MANAGEMENT APP FROM LRS

When guests walk in, type their name, party size and note if they have any seating preferences such as a non-smoking or window table from the iQueue’s built-in Preferences Option. Then, hand them an LRS guest pager or add their cell phone number to the iQueue App. Now, your guests are free to enjoy a drink at the bar or walk around while they wait. When it’s their turn to be seated, simply drag and drop the party’s name to the assigned table and iQueue will instantly notify their pager or cell phone that the table is ready.

Benefits
- Pages cell phones and LRS pagers (Patented)
- Accurately quote your customers wait times
- Have an organized and professional customer waiting list
- Easily find your customers with the push of a button at No-Cost
- Give customers the freedom to walk around while they wait
- Eliminate guest crowding around the hostess stand
- Servers can remotely view and update table statuses
- No more loud and unprofessional customer name calling
- Eliminate expensive and time consuming mobile phone paging fees
- Increase your sales with more table turns

TABLE TRACKER RFID

LRS IS PROUD TO INTRODUCE THE NEW PATENTED RFID TABLE TRACKER SYSTEM

Streamline operations and improve customer satisfaction with the RFID Table Tracker advanced technology. Table Tracker follows and reports on your entire service cycle from ordering and seating to food delivery and table clearing. Table Tracker will assist your business in making sure you have a record of your entire operation. Real-Time data displays order status and table locations for faster service and a noticeably improved customer experience.

Benefits
- Deliver food fast and at ideal temperature
- Easy-To-Read color coded Touch-Screen display
- Managers are instantly notified on pagers if there are any late orders
- Measurable efficiency in operations and greater staff collaboration
- Improved speed of service leads to an enhanced dining experience
- Reporting shows order time, seat time, delivery time and clean time
- Portable Clearing Unit clears orders as soon as they’re delivered
- Busser-Unit gives you an insight into the time it takes to clean tables
- To-Go Unit speeds up delivery of Take-Out orders
- Table Tracker Coasters last up to 3 days on a single charge
- Easy implementation with minimal training required

HOW IT WORKS

1. Order
   A Tracker Coaster is given to customers when they order

2. Locate
   The Tracker reads tags on the customer’s table and broadcasts its location.

3. Deliver
   Food runners then refer to Order View to identify a guest’s location and deliver food

4. Analyze
   Managers can use Table Tracker app or LRS Connect to view performance reports
NETPAGE UNLIMITED

TASK MANAGEMENT

MAKE SURE STAFF MEMBERS NEVER MISS A TASK AGAIN

Assigning Tasks and knowing when they are completed is an essential part of your business and organization. With NPU Task Management, you can make sure a task is never missed by staff members again.

HOW IT WORKS

1. Assign
   Assign your staff member a task and set the time and date the task should be completed by

2. Notify
   Staff member receives an instant message on an LRS staff pager and a touchscreen monitor or tablet

3. Complete
   Once the task is completed, staff member cancels the task from the touchscreen monitor or tablet

4. Confirm
   Manager then receives an instant notification on an LRS staff pager as well as an email confirmation
DIGITAL COMMENT CARD

GET CUSTOMER FEEDBACK IN REAL-TIME WHEN IT MATTERS THE MOST

The Digital Comment Card is the simple and effective way to capture your customer's perceptions about your business while they are on-premise. There is no better time to hear your customer's thoughts about your products and services than during their visit. No longer do you have to rely on mystery shoppers, delayed online surveys or unreliable paper comment cards as means for researching consumer satisfaction scores. Get the feedback your business needs immediately while it is most valuable.

Digital Comment Card is the ideal solution for data collection and is extensively used in hotels, restaurants, coffee shops, hospitals, spas, retail shops and many other businesses.

Benefits
- Get Immediate and Measurable feedback on site
- Real-Time feedback you can use to improve or monitor staff
- Our Digital Comment Cards are flexible and tailored to your needs
- Managers can appropriately react to positive or negative situations
- Know if customer satisfaction slips below a benchmark target
- Surveys can be designed to benchmark each area of your operation
- Promotional feature keeps your customers interested in answering
- Reports are distributed via email to your specified staff members
- Our customer response rate has consistently been over 75%
- Secure Online reporting and servers

U.L.O BEACH SAFE

RELAX AND DISCREETLY PROTECT YOUR VALUABLES WHILE YOU SWIM

No more looking over your shoulder or leaving someone behind to watch your belongings and no more hiding your valuables in your bag, shoes or under the towel. Simply put your mobile phone, wallet, keys and other belongings inside the U.L.O Beach Safe and lock it using the TSA combination lock that is included. The safes will instantly increase the overall guest experience, by giving them complete peace of mind while they swim or eat.

Renting out the safes to hotel and beach resort guests can return your investment within weeks. The safes can also increase your poolside revenue because your guests will be more comfortable leaving their valuables behind, so they can order food and drinks.

Benefits
- Give your guests peace of mind while they swim or eat
- Reduce petty-theft and customer complaints
- Return your investment within days by renting out the safes
- Security shell is large enough to hold several people's valuables
- Overlapping edges help keep the sand out
- Earn more revenue by having a sponsor's logo added to the safes
- Promote your hotel by adding your logo to the beach safes
- White color blends with the underside of your umbrella
- Sleeve attaches to the umbrella with the twist of a thumbscrew
- Fits virtually all umbrellas with no tools needed for installation
- It includes a Re-Settable TSA approved combination lock
- You can create your own lock combination
- Made in the USA from strong ABS plastic
**HOTELS & BEACH RESORTS**

HOTELS ALL OVER THE WORLD HAVE BEEN USING LRS ON-SITE PAGING SYSTEMS TO HELP IMPROVE OPERATIONS

Hotels are customer-oriented businesses and with guests demanding the best service available, your management is constantly searching for new and efficient methods in meeting those demands. LRS paging systems give hotels the ability to improve staff communications, increase sales, streamline operations and enhance the overall guest experience.

**Benefits**
- Organize group Check-In’s and Check-Out’s in an efficient manner
- Enhance your guest’s hotel experience and improve staff efficiency
- Instantly page your managers and staff within your hotel at No-Cost
- Increase sales by having your guests use hotel facilities as they wait
- Easily find your waiting guests with the push of a button at No-Cost
- Eliminate expensive and time consuming mobile phone paging fees
- Send your guests instant text messages to their LRS pagers
- Use LRS pagers to promote your hotel restaurants, bars and facilities
- Hand out LRS pagers to guests while they wait for assistance
- Give your staff the ability to provide the highest quality of service
- Eliminate guest crowding around the reception area
- No more loud and unprofessional guest name calling
- Reduce your monthly labor overhead costs

**RESTAURANTS & FOOD COURTS**

LRS RESTAURANT PAGING SYSTEMS WILL INCREASE YOUR SALES, REDUCE YOUR OVERHEADS AND IMPROVE SERVICE

LRS Restaurant Paging Systems will give you the ability to eliminate waiting crowds around your hostess stand or cashier and ensure your customers don’t walk away and eat elsewhere. With LRS paging systems, you can now locate your customers anywhere with the push of a button and ensure they return to eat at your restaurant.

**Benefits**
- Increase your sales by reducing customer No-Shows and Walk-Aways
- Give your customers the freedom to walk around while they wait
- Easily find your customers with the push of a button at No-Cost
- Eliminate expensive and time consuming mobile phone paging fees
- Have an organized customer waiting list with no line cutting
- No more loud and unprofessional customer name calling
- Reduce the number of trips guests make to see if their order is ready
- Faster service leads to more satisfied customers and sales increase
- Our pagers don’t have speaker holes that could accumulate bacteria
- Use customized labels to promote your offers, products and services
- Eliminate guest crowding around the hostess stand
- Reduce your monthly labor overhead costs
COFFEE SHOPS

GIVE YOUR CUSTOMERS THE FREEDOM TO FIND A TABLE, SIT AND RELAX WHILE THEY WAIT FOR THEIR ORDERS

Coffee shops all over the world depend on LRS guest pagers to help streamline operations and improve service. While your customers are waiting for their coffee and sandwiches, simply hand them an LRS guest pager and give them the freedom to find a table while their orders are being prepared.

HOW IT WORKS

1. Order
   When the customer places an order, hand him or her an LRS guest pager

2. Relax
   The customer is now free to find a table, sit and relax while the order is being prepared

3. Notify
   Once the order is ready, your staff simply press the number of the corresponding pager to notify the customer

4. Collect
   Your customer then returns the pager to the staff member and collects the order

Benefits
- Increase your sales by reducing customer No-Shows and Walk-Aways
- Have your customers find a table, sit and relax while they wait
- Give your staff the space needed to provide the best quality of service
- Ensure orders are delivered hot & fresh by locating customers quickly
- Have an organized customer waiting list with no line cutting
- Excellent solution for coffee shops with more than 1 floor
- Eliminate crowds at the cashiers so new customers can order
- Eliminate noisy and garbled employee announcements
- Use LRS pagers to advertise new drinks, desserts and special offers
- Give customers the freedom to walk around until their tables are ready
- Page your manager and staff members instantly at No-Cost
- Reduce monthly labor overhead costs

SUPERMARKETS

INTERNATIONAL SUPERMARKETS DEPEND ON LRS TO IMPROVE CUSTOMER AND STAFF COMMUNICATION

LRS has developed multiple solutions to meet the needs of supermarket chains across the globe. Our solutions help improve customer service and assist staff in communicating more efficiently. With the simple push of a button, your cashiers and customers can instantly page a staff member for assistance.

How It Works

1. Order
   When the customer places an order, hand him or her an LRS guest pager

2. Relax
   The customer is now free to find a table, sit and relax while the order is being prepared

3. Notify
   Once the order is ready, your staff simply press the number of the corresponding pager to notify the customer

4. Collect
   Your customer then returns the pager to the staff member and collects the order

Benefits
- Increase service by having your staff assist customers as they shop

DAYCARE CENTERS

INSTANTLY LOCATE PARENTS ANYTIME, ANYWHERE

Whether you’re trying to contact parents because their child is ready to leave or searching for a fellow staff member for assistance, our affordable and silent paging systems will give your Daycare Center the ability to do just that.

Hand out an LRS guest pager to parents when they drop off their children and give them the freedom to walk around, shop and relax. When their child is ready to leave, simply type the parents’ pager number to notify them instantly. When parents return to your Daycare, collect their pager and use the number to confirm their identity. It’s a safer method of identifying parents than the use of paper tickets that can be easily copied.

Benefits
- Only parents with the correct pager can pick up their child
- Instantly contact parents anywhere within the mall or your premises
- Our pagers provide constant vibration so parents won’t miss a page
- Maintain customer privacy by avoiding mobile phone paging
- Eliminate expensive and time consuming mobile phone paging fees
- Send detailed messages to your staff with instructions at No-Cost
- Durable Lexan construction reduces damage and replacement costs
- Plug and Play operation that is simple to setup and use
- Up to 72 hours battery life on a single charge
- Rechargeable Nickel Metal Hydride battery
- Very affordable with systems for every budget

WAREHOUSES & LOGISTICS

EFFICIENTLY CONTROLLING THE FLOW OF TRUCKS CAN RESULT IN SIGNIFICANT OPERATIONAL GAINS

New Trucking & Logistics paging solutions from LRS, allows logistics operators to immediately notify waiting drivers, when it’s their turn to approach the docking station, no matter where they are located within and near facility grounds. Using LRS paging systems will give you the ability to increase productivity, organization and accuracy of truck deployment. They also help your company eliminate wasted time hand-delivering messages to waiting drivers and prevent traffic jams caused by vehicles parking for unloading.

Another LRS paging solution is Forklift Alpha Coaster. Warehouses are typically noisy places, so an overhead page could be misunderstood or easily missed. With the Forklift Alpha Coaster from LRS, the driver instantly sees there is a message and can respond immediately, which speeds up response times, eliminates missed messages and improves communication because the message is clearly conveyed.

Benefits
- Provide instant and clear notification to your forklift drivers
- Direct drivers to complete a task with minimal effort
- Ensures messages are received in loud environments
- Prevent traffic jams caused by vehicles parking for unloading
- Increase productivity, organization and accuracy of truck deployment
- Send detailed messages to your staff with instructions at No-Cost
- Eliminate expensive and time consuming mobile phone paging fees
- Effortlessly direct your drivers and improve warehouse productivity
- Instant notification enables quick response times
- Provide truck drivers peace of mind while they wait
- Eliminate wasted time hand-delivering messages to waiting drivers
- Remind staff of meetings & different duties they must perform
- Eliminate disruptive and hard-to-hear overhead paging
- Economical Staff-Staff paging solution with no monthly fees
- Locates staff quickly and efficiently
- Minimizes emergency response time
**Benefits**
- Enhance your overall customer experience and treat them like V.I.P’s
- Increase staff efficiency, staff response time and customer service
- Attend your customers in their fitting rooms and reduce long lines
- Have your staff assist customers in their fitting rooms
- Cashiers can instantly page managers and staff for assistance
- Speed up checkout lines and improve customer service
- Maintain privacy by using separate pagers for female and male rooms
- Better customer service leads to better sales
- Send detailed messages to your staff with instructions at No-Cost
- Eliminate loud and intrusive overhead announcements
- Excellent solution for shops with Locked Product Cases
- Ideal solution for Staff-Staff and Customer-Staff communication
- Easily attaches to any surface with various mounting options

**GIVE YOUR CUSTOMERS THE V.I.P TREATMENT WHILE THEY SHOP AT YOUR STORE**

Nothing irritates a customer more than needing assistance, but no one is around. With LRS Retail Paging Solutions, customers no longer have to leave the convenience of their fitting rooms to change a garment. By using LRS Push-For-Service transmitters, customers can now call a staff member for assistance, with the simple push of a button.

LRS Push-For-Service transmitters are also used by staff to contact each other discreetly and efficiently. Your cashiers can now call managers and fellow employees for assistance, without leaving their cash registers. Furthermore, retail stores can use LRS Guest Paging Systems to locate customers easily, when their purchases are ready to be picked up. Simply hand them shopping while they wait.

**VALET PARKING**

**AVOID WAITING IN LONG LINES FOR YOUR CAR TO BE DELIVERED**

By using LRS Push-For-Service transmitters, the Valet Parking companies can now complete the luxury cycle by having their customers notify the valet staff, when they’re ready to pick up their cars. With the simple push of a button, your customers can now request their cars in advance so they can avoid long lines and delays.

Hotels, Beach Resorts, Restaurants and Nightclubs can also improve their Valet Service instantly, by using our patented Freedom Call Transmitter. When your customers request their cars, simply type in their ticket or room numbers and press enter. Your valet attendants will instantly receive a notification on their pagers, of what cars they should bring up front.

**Benefits**
- Provide customers the luxury service they expect from your company
- Customers no longer have to wait outside in long lines for their cars
- Eliminate customer crowding around the valet stand
- Automatically pages the manager if there is a delay in car delivery time
- Managers can track and improve car delivery and staff response times
- Faster service means more satisfied customers and more revenue
- Send detailed messages to your staff with instructions at No-Cost
- Instantly improve customer satisfaction
- Have an organized and professional customer waiting list
- Eliminate expensive and time consuming mobile phone paging fees
- Instant and efficient staff & customer communication
- Reduce your monthly labor costs
NIGHTCLUBS & LOUNGES

GIVE YOUR CUSTOMERS THE V.I.P TREATMENT WITH LRS NIGHTCLUB PAGING SOLUTIONS

Nightclubs are loud environments and locating your servers can be a difficult task. Customers expect fast and efficient service and LRS Nightclub Paging Solutions will give you the ability to do just that, run a smooth and professional operation.

LRS Push-For-Service transmitters are used by customers to send instant messages to servers when they require service or assistance. With the push of a button, they can notify servers when they need to order ice, drinks or food. Customers can also use LRS transmitters to page the valet parking staff before they leave your nightclub, so they can avoid waiting outside for their cars to be delivered. Furthermore, LRS transmitters can be used to contact your security staff in case of an emergency. Your security staff will be immediately notified where the emergency is and will be able to respond quickly and professionally.

LRS offers a variety of Server Paging Transmitters to help improve server efficiency and performance. Our portable transmitters will give your bar and kitchen staff the ability to instantly locate servers when it’s time to pick up drinks and food orders.

Benefits
- Give your guests the V.I.P service and improve guest satisfaction
- Excellent solution for out of sight tables, upper floors and V.I.P rooms
- Instantly increase your food & drinks sales and staff efficiency
- Send detailed messages to your staff with instructions at No-Cost
- Improve Customer-Staff interaction and staff efficiency
- Give your guests the ability to call security with the push of button
- Customers no longer have to wait outside for their cars
- Eliminate expensive and time consuming mobile phone paging fees
- Faster service means more satisfied customers and more revenue
- Auto-Shut helps increase battery life by turning off the unit
- Pages the manager when batteries are running low
- Automatically pages the manager if there is a delay in service
- Durable Tamper-Proof and Splash-Proof design
- Easily attaches to any surface with various mounting options

CINEMAS & THEATERS

IMPROVE YOUR SALES AND MOVIE EXPERIENCE WITH LRS CINEMA SOLUTIONS

Our advanced Push-For-Service transmitters give your guests the ability to order food, drinks and report any issues they may have. By allowing them to page a server any time they choose with the push of a button, our transmitters will instantly increase your food and beverage sales and give your customers the V.I.P cinema experience they expect.

LRS Push-For-Service transmitters offer customers on-demand service and give your manager the ability to keep track of server response times and performance. If there is any delay from your servers in handling a customer request, our transmitters will automatically page your managers after a pre-assigned time limit notifying them of the delay. With this built-in Manager-Alert feature, you can now keep track of server response times, help improve their performance and ensure every customer request is handled efficiently. Our Push-For-Service transmitters are durable and can be mounted on almost any surface including walls, chairs and tabletops.

Benefits
- Instantly increase your food & drinks sales and improve service
- Give your guests the V.I.P treatment they expect
- Instant and efficient Customer-Staff communication
- Automatically pages the manager if there is a delay in service
- Managers can now track and improve staff response time
- Send detailed messages to your staff with instructions at No-Cost
- Auto-Shut helps increase battery life by turning off the unit
- Automatically pages manager when battery life is low
- Easily attaches to any surface with various mounting options
- Economical Staff-Staff paging solution with no monthly fees
- Reduce your monthly labor costs
- Durable Tamper-Proof design
**STREAMLINE YOUR ADMISSIONS, SECURITY AND CAFETERIA ORDERING PROCESS WITH LRS PAGING SOLUTIONS**

From small schools to large universities, countless campuses have implemented reliable and easy-to-use paging solutions by LRS for increased security, more convenience and streamlined operations.

No more students hovering around your cashiers and no more food order mix ups. With LRS Cafeteria Paging Systems, you can now find your students anywhere with the push of a button.

Place Alpha Coasters in your classrooms and have the ability to page your teachers with the push of a button. Whether you’re sending a simple message, requesting a student to the administrator office or alerting your entire campus of an emergency, using LRS Alpha Coasters will make sure all your messages are sent quickly and efficiently.

By installing LRS Butler XP transmitters inside their buses, schools can give bus drivers the ability to page parents once they are within close proximity to their homes, to either pick up their children or drop them off.

**Benefits**
- Send detailed messages to your staff with instructions at No-Cost
- Auto-Alarm will page staff to remind them to perform certain tasks
- Reduce the time students spend waiting in line for Admissions
- Provide instant emergency alert messages with one press of a button
- Maintain a quite atmosphere in your library with LRS paging systems
- Organize your cafeteria dispatch counters with LRS Guest pagers
- Eliminate expensive and time consuming mobile phone paging fees
- Eliminate class interruptions and maintain a quite atmosphere
- Economical Staff-Staff paging solution with no monthly fees
- Increase staff efficiency with improved communication
- Improve Student-Staff interaction and staff efficiency
- Eliminates loud and intrusive overhead paging systems
- Locate campus staff quickly and efficiently

**INCREASE YOUR SALES BY HAVING CUSTOMERS SPEND MORE WHILE THEY WAIT**

LRS Bowling & Arcades Paging Systems help increase sales by giving your customers the ability to use your various entertainment activities, while they wait for a lane. Hand them an LRS guest pager and give them the freedom to order food, shoot pool or visit the arcades. When a lane becomes available, simply notify them using an LRS Guest Paging Transmitter so they can return to the registration counter.

The same Guest Paging Transmitter can be used by your staff to contact each other with instant messages. All they have to do is type the staff member’s pager number, their message and press enter. Within seconds, your staff are instantly notified on the LRS Alphanumeric staff pagers. It’s really that simple!

LRS also offers affordable solutions for Customer-Staff and Staff-Staff communications. Our Push-For-Service transmitters help you provide on-demand customer service, as well as technical assistance for stuck pins or other help requests. With the push of a button, your staff will be notified immediately where to go and be able to give responsive assistance.

**Benefits**
- Increase sales by having customers use other facilities as they wait
- Have an organized customer waiting list with no line cutting
- Reduce customer crowding at the registration counter
- Eliminate expensive and time consuming mobile phone paging fees
- Send detailed messages to your staff with instructions at No-Cost
- Our pagers provide constant vibration so customers won’t miss a page
- Plug and Play operation that is simple to setup and use
- Durable Lexan construction reduces damage and replacement costs
- Reduce your monthly labor overhead costs
- Built-In Anti-Theft mode minimizes pager loss
From the day that our doors opened over 20 years ago, LRS has been the leading innovator of Onsite Wireless Paging and Communication Systems. In 1995, we invented the Original Coaster pager that revolutionized the paging industry and now we provide more unique and exclusive products than anyone else in the market.

Based in Texas, USA we are an international company with Sales and Service offices throughout the world. In 2009, we opened our regional office in Lebanon, to further continue with our commitment to grow in the Middle East. Since then, LRS successfully opened 11 new offices across the MENA region, making us the No.1 Onsite Paging Solutions company in the Middle East.
