

**WAVE BRAKE**

**THE NEW  
GENERATION  
WAVEBRAKE®**

**WAVEBRAKE®**

**JUST GOT A**

**WHOLE LOT BETTER**

Rubbermaid Commercial Products introduced the first resin mop bucket in 1974. The BRUTE mop bucket was introduced in 1995 with new ergonomic features. WaveBrake® was introduced in 2005 with a patented bucket and baffle design that reduced splashing for more efficient, safer mopping.

Rubbermaid Commercial Products continues to innovate, improving the industry-leading splash reduction and adding new features that surpass any other traditional mop bucket. These new features help the New Generation WaveBrake® clean floors with less effort to get the job done safer.

Proudly made in Winchester, Virginia, WaveBrake® features structural web-molded plastic construction to ensure the highest quality and durability you have come to expect while delivering industry-leading performance.

# DESIGNED TO

# IMPROVE SAFETY

Traditional mop buckets may cause additional spills when moving or cleaning. Patented WaveBrake® baffles result in less splashing while mopping and maneuvering, helping to create a safer environment for patrons and staff.

**20 PERCENT** OF ALL  
JOB-RELATED INJURIES ARE CAUSED BY  
SLIPS, TRIPS, AND FALL INJURIES<sup>1</sup>

SLIPS, TRIPS, AND FALL INJURIES  
COST EMPLOYERS APPROXIMATELY **\$40,000**  
PER INCIDENT<sup>1</sup>

**85 PERCENT** OF  
WORKERS' COMPENSATION CLAIMS  
ARE ATTRIBUTED TO EMPLOYEES  
SLIPPING ON SLICK FLOORS<sup>2</sup>

## REDUCES <sup>OF</sup> SPLASHING <sup>BY</sup> **80%**<sup>1</sup>

Traditional mop buckets may cause additional spills when moving or cleaning. Patented WaveBrake baffles result in less splashing.

\*versus competitive 35Qt U.S. single compartment mop bucket and wringer, not including divider bucket and accessories.

<sup>1</sup> Centers for Disease Control and Prevention (CDC), Bureau of Labor Statistics (BLS)

<sup>2</sup> Industrial Safety & Occupational Health Markets 5th Edition

# EASY TO EMPTY

The New Generation WaveBrake® mop bucket is designed to empty water with less effort.

The average mop bucket with water weighs up to **28 pounds**. New Generation WaveBrake® incorporates an optional foot-operated drain to help empty heavy mop buckets into floor drains, eliminating the strain associated with lifting and bending.

For facilities where sinks are used, integrated handles, a sink ledge, and a pour spout provide control while lifting and emptying.

## **BUILT-IN DRAIN**

A convenient foot-operated drain eliminates the strain of lifting and bending when emptying mop buckets.

## **INTEGRATED HANDLES**

Integrated handles help ensure a secure grip to lift and empty the mop bucket.

## **POUR SPOUT**

A molded-in pour spout and sink ledge help direct water while emptying the mop bucket.

## **FREESTANDING WRINGER**

Integrated wringer handle makes removing the wringer easy and convenient; wringer base is designed to stand upright to minimize bending over.

# REDESIGNED FOR PROFESSIONALS

The New Generation WaveBrake® is designed and built to the highest quality standards for professional use. WaveBrake wringers have a **5-YEAR, INDUSTRY-LEADING WARRANTY.**

## DEPENDABLE WRINGER

The side-press and down-press wringers are designed to last 5 years or 200,000 wringing cycles.\*

## EASY TO MANEUVER

Integrated guides ensure a secure wringer and bucket connection, providing stability while wringing and maneuvering.

## CONVENIENT MOP HOLDER

Flared wringer design allows mop handle to conveniently rest on the side of the wringer while not in use.

## IMPROVED WRINGER DESIGN

Improved wringer design now works with more mop sizes, from x-small to x-large, 12oz - 32oz.

## **DURABLE WRINGER HANDLE**

WaveBrake® wringer handle is made with steel and includes a comfort grip to help make wringing easy.

## **NON-MARKING CASTERS**

Non-marking casters will not scuff floors to keep them looking their best.

## **DIRTY WATER BUCKET**

The WaveBrake® Dirty Water Bucket nests below the wringer to keep the dirty water separate to help reduce risk of cross-contamination.

# IMPROVED PRODUCTIVITY

The New Generation WaveBrake® is built to last, with features you can continue to depend on.

# COLOR-CODED CLEANING

Cleaning professionals today use a color-coded cleaning system, using color-coded buckets, handles, and mops to help reduce cross-contamination. Additionally, they can be organized by function, department, or building area, making it easier to track usage.

## RECOMMENDED USAGE:

Color-coding systems can vary by vertical and application; however, Rubbermaid Commercial Products, in alignment with industry experts, recommends the following system:

- **Yellow:** Back-of-House Cleaning
- **Brown:** Back-of-House Cleaning
- **Red:** High-Risk Restroom Areas
- **Blue:** General-Purpose Cleaning
- **Green:** General Food Processing, Serving, And Bar Areas
- **Black:** Front-of-House Cleaning
