WHY CHOOSE CROWN VERITY?

Our passion at Crown Verity is to bring all the precision and performance of commercial kitchens into the outdoor environment. To that end we design and manufacture grills to the most exacting standards in the industry, allowing professional and home chefs alike to be brilliant.

... and our pizza oven continues that tradition.

COOK A THIN CRUST PIZZA IN JUST MINUTES.

1 MAXIMUM MOBILITY
   Whether you’re rolling out onto the patio or catering an outdoor event, our pizza oven can go where you go and cook where you want to cook.

2 ALL-IN-ONE COMPACT UNIT
   30lb twin propane tanks mounted to the lower shelf. This allows you to keep cooking for extended hours and count on the capacity to meet the needs of your crowd.

3 PRECISION & CONTROL
   You have the option to light your oven manually or with our piezo ignitor. The choice is yours.

4 ADVANCED PILOT TUBE SYSTEM
   The crown verity pilot tube system adds up to 5,000 BTUHs to supplement the burners. This will ensure the oven stays lit in the outdoor elements.

5 EASY TO DISASSEMBLE
   Keeping your equipment clean is important in any kitchen. Taking the pizza oven apart is so easy you can be assured that clean up is a breeze. No tools required.

6 POWER & RELIABILITY
   Our dual dome system provides optimum temperature capture for a reliable and consistent heat.

7 ACCESSORIZE WITH EASE
   Increase prep and serving space by adding front and end shelves. Plenty of room for plating.

8 VOLCANO STONE COOKING TILE
   The Volcano Stone Cooking Tile is 100% natural, and originates from the volcanic regions of Italy. The cooking tile can absorb high heats and its low porosity reduces sticking, making it the ideal surface to bake your pizza.

9 UNSURPASSED WARRANTY
   Count on your Crown Verity to last. 1-Year parts and labour. 90 Days on stones and 10-years on the burners.

10 QUALITY MATERIALS
   Crown Verity pizza ovens are built to withstand the harshest environments. Every oven is constructed from the highest quality materials and features 304 stainless steel with a #4 finish, meaning your investment is truly built to last.

11 NO ASSEMBLY REQUIRED
   Every Crown Verity pizza oven arrives at your door fully assembled. Simply unpack your oven, connect it to gas and start cooking!
