

PURACYCLE™

the ReMarkable Label

SAVE MONEY

100 Puracycle Labels eliminate 50,000 single-use labels or 70 rolls of masking tape. Our Remarkable Labels are dishwasher-safe and 7x less expensive than masking tape, and up to 25x less expensive than dissolvable labels.

SAVE TIME

No more peeling, picking, scratching, or scrubbing. No more hunting for labels or a roll of masking tape. Puracycle labels will be right where you left them. Kitchen cleaners and food preppers will thank you for making the switch.

GO GREEN

The Patent-Pending Puracycle Labels are made from recyclable materials so you can feel good when you finally peel it off. Plus, our Remarkable labels eliminate the incessant accumulation of paper and tape waste.

Health Standards

Masking tape and paper labels leave a nasty residue, which builds up quickly over time. Stop getting dinged those easy health code violation points when you switch to the Remarkable Label.

Simple Operations

With Puracycle, there's no more looking for labels or ordering more masking tape every time it goes missing. You don't need to invest in an expensive printer or costly employee training.

Free Customization

Enjoy free customization options; add your logo, alternative text, or even request new sizes. Work for free with our team of graphic designers to create the label that fits your needs.
