EXECUTIVE SERIES™

As forecasters predict solid growth in the hospitality industry, now is the time to identify what emerging trends can be implemented into your facility.

In this section, Rubbermaid Commercial Products has compiled important drivers and trends aimed at transforming your hotel or resort from a place to stay into a preferred destination.

MAINTAIN A CLEAN ENVIRONMENT

For most hotels and resorts, housekeeping is the largest department and plays the most vital role in maintaining a clean environment. It is now essential to employ a strong housekeeping staff equipped with the latest tools and training methods to ensure guest health, safety, and comfort.

Only Rubbermaid Commercial Products provides a full range of innovative cleaning solutions to support the special needs of your staff. Our patented WaveBrake® Mopping System is a prime example. Used with the Dirty Water Bucket feature, we've streamlined cleaning floors by hiding and separating the dirty water from the clean to allow areas to be maintained discreetly and efficiently.

INCREASE PRODUCTIVITY

In March of 2012, IBISWorld reported that the ability to quickly adapt new technology is one of the key success factors in the global hotel and resort industry. Further, USA Today reported that housekeeping staff are more productive armed with newer, smaller cleaning carts due to increased mobility and reduced injury.

The primary motive for creating Executive Series was to empower housekeeping professionals to work smarter by completing tasks in a more productive and discreet way. From high-capacity carts that hold more to reduce restocking trips, to our PULSE™ hard floor cleaning system with onboard fluid reservoir to clean an entire lobby, no other line of cleaning supplies will elevate and empower your team like Executive Series.

PROFESSIONAL PRESENCE

Overnight, the power of social media and instant access to reviews and feedback has put consumers in the driver's seat. As a result, word-of-mouth recommendations can be the most successful promotional tool in the hospitality industry. From the smallest detail of a handwritten note to the grand gesture of a free upgrade, sustaining a professional presence has lingering effects long after guests have checked out.

Executive Series will elevate your image by allowing staff to blend into the environment with discreet colors, reduced noise, and concealed supplies. This effort will demonstrate an uncompromising commitment to guest satisfaction.

For today's consumer, selecting a hotel is an emotionally charged decision. Research shows how guests feel about your brand is far more important than what they think about your amenities and features. Your brand must aim to attract and retain this highly diverse audience, and Rubbermaid Commercial Products is here to help make that happen. As a global market leader, our products touch millions of people every day.

We're proud to provide you with the most innovative solutions designed to meet three fundamental principles:

- DURABILITY AND RELIABILITY
- HEALTH AND WELLNESS
- SUSTAINABILITY

Since 1968, Rubbermaid Commercial Products has worked to become your partner for the smartest solutions. Like you, we will continue to proudly serve our customers, deliver solutions that matter, and stand behind the proven legacy of our brand.

Product Usage Key

To determine the cleaning solutions best suited for your facility, refer to the icons below, created to identify key hospitality areas. These icons appear throughout the product summary section to help guide you in selecting solutions to best fit your needs.
