

MERIDIAN® SERIES

ICE AND WATER DISPENSERS

➤ The very latest in ice- and water-dispensing technology for the healthcare industry.

With the introduction of Meridian®, Scotsman has combined legendary reliability, time-saving serviceability and convenient cleaning innovations all in one lineup. Born out of extensive market research, Meridian® was developed with space, production and installation in mind – and delivers the softest, most satisfying ice on the market.

Scotsman®

meridian®

Reliable Performance.

Serving ice to patients, families and staff is a small but essential part of providing the highest quality care. In today's fast-paced healthcare environments, maintenance issues can be a challenge for busy employees. That's why every Meridian® model is built to be reliable and easy to operate.

SEALED, MAINTENANCE-FREE BEARINGS

Meridian® models feature Scotsman's exclusive greaseless bearing design, a fully sealed configuration that eliminates the need for grease. More reliable than ever, the sealed, maintenance-free bearings contribute to a longer machine life and help lower service costs. Not only does this save valuable time and labor, it also ensures a sanitary ice supply.

BETTER DISPENSING

With best-in-class technology powered by infrared sensors that intuitively sense start and duration, Meridian® models feature an enlarged dispensing envelope and offset spouts to accommodate a variety of containers. To optimize dispensing, Meridian® models produce H² Nugget Ice which is slow-melting and designed for reliable dispensing.

REDUCED OPERATIONAL FOOTPRINT

Ideal for any area where space is at a premium, Meridian® models have one of the smallest operational footprints of any comparable unit on the market. From crowded nurse stations to busy break rooms, Meridian® helps maximize valuable facility space.

QUIET OPERATION

Meridian's improved condenser fan function minimizes unnecessary equipment noise that can negatively affect the atmosphere of your facility.

ENERGY EFFICIENCY

With electronic controls and a highly effective compressor, Meridian® models are up to 15% more efficient than the competition, providing the most energy savings possible for today's facilities.

SMART CONSTRUCTION

Whether it's the durable stainless steel evaporator, the larger sink drain opening that helps prevent clogging or the contoured sides that allow enhanced breathability, Scotsman designed Meridian® for maximum efficiency and performance.

A dispensing solution you can count on,
featuring the softest ice form on the market

Scotsman®

Three innovative models. One trusted name.

HID312

up to 260 lbs./day*
stores 12 lbs.

HID525

up to 500 lbs./day*
stores 25 lbs.

HID540

up to 500 lbs./day*
stores 40 lbs.

- Optional 4" adjustable legs available for easy cleaning beneath unit
- Newly designed optional stands add lockable, hinged door with internal storage
- All models come with Scotsman's industry-leading three-year parts and labor warranty, as well as, five-year parts coverage on compressors and condensers
- ADA-compliant for height requirements
- Wall-mounted units also available

Touch-Free Dispensing

Touch-free, infrared dispensing of ice and water eliminates the need to physically touch the dispenser, providing more sanitary operation.

* Approximate ice production, per 24 hours, based on air-cooled condenser unit at 70°F air and 50°F water.

meridian®

Focus on sanitation and convenient cleaning.

Ice machines play a critical role in both the health and safety of any facility – but no matter how new or advanced a unit may be, regular cleaning is still necessary to ensure proper conditions for reliable, uninterrupted performance. With Meridian® from Scotsman, you get intuitive access that allows for fast, effective cleaning that fits your team's workflow and schedule.

TOUCH-FREE TECHNOLOGY

Scotsman's NSF-compliant infrared design was an industry first, eliminating levers and buttons that can increase the risk of cross-contamination.

EXTERNAL AIR FILTER

With an industry-exclusive external air filter that allows easy access, rinsing and reusing, Meridian® provides enhanced visibility – not only keeping regular cleaning top of mind, but helping to keep your equipment running effectively and reliably as well.

FULLY REMOVABLE COMPONENTS

Washing, cleaning and maintenance are easier than ever thanks to Meridian's fully removable storage bin, spouts, air filter, sink and grill.

BUILT-IN ANTIMICROBIAL PROTECTION

All Meridian® units feature AquaArmor with AgION®, a silver-based antimicrobial compound molded directly into key components to help inhibit the growth of microbes, bacteria, mold and algae.

PURPOSE-BUILT SPOUT DESIGN

A specifically designed spout with an angled front provides full visibility and access, making regular cleaning quick and easy.

SEALED REFRIGERATION SYSTEM

Meridian's unique H² Nugget Ice is produced using a sealed refrigeration system, which minimizes outside airborne contamination.

Built to ensure sanitary operation at all times, even between regular cleanings

Scotsman®

Quick and easy service.

While regular maintenance is always an essential part of owning and operating any equipment, it's simply not an option to have frequent or prolonged downtime. With Meridian® from Scotsman, you get true ease of maintenance, ensuring reliability for years to come without sacrificing valuable time and labor.

INTUITIVE DIAGNOSTICS

Easy-to-identify internal LED indicator lights on every Meridian® model keep maintenance staff informed of the unit's operating status, helping them quickly diagnose potential issues and minimize costly downtime.

FRONT ACCESS TO KEY COMPONENTS

An easy-to-remove front panel provides instant access for diagnosing potential issues and servicing key components.

CONVENIENT QR CODE ACCESS

A unique QR code connects operators and technicians with unit-specific information, including parts lists, service manuals and warranty history information. In fact, Scotsman is the only manufacturer that give operators instant access to information about their particular model on the spot.

EXCLUSIVE USB PORT

With a convenient USB port you'll find only on Scotsman products, operators can easily install the most up-to-date software without requiring a new control board.

An intuitive design that gives you the access you need, day in and day out

meridian®

Scotsman. The clear choice.

- A leading brand in ice, trusted by many of the world's largest healthcare, foodservice and professional organizations.
- Proudly manufactured in our award-winning Fairfax, South Carolina facility.
- Solely focused on ice and the evolution of ice-making technology.
- A leading brand of the Ali Group, the largest and fastest-growing conglomerate of foodservice equipment companies in the world.
- A three-time ENERGY STAR award winner – two-time ENERGY STAR Partner of the Year and winner of the ENERGY STAR Product Design Award.
