# Manitowoc Beverage Systems

## Mission

Our mission is to create value for our customers through product line breadth, global distribution reach, complete and on-time delivery, warranty execution, consolidated invoicing and logistical excellence.

## Product Breadth

We currently have over 6,000 items in our product offering, and are continually adding and replacing items to meet customer demand.

## Consolidated Orders

One of our specialties is consolidating orders or “bundling.” Rather than purchasing ice makers, drink dispensing equipment, accessories, racks, tubing, fittings, and other necessary items for new installations from various suppliers with various delivery dates and in multiple packages, we put it all together into one neat package and deliver it when and where you want it! Beyond consolidating shipments, MBS provides a single point of contact and a single invoice when the complete order has been shipped, further streamlining your business. Please contact your sales representative for more information about this program.

## MBS Partners

Our partnership with Manitowoc Beverage Equipment (Servend, Multiplex and Flomatic), Manitowoc Ice and Kyees Aluminum, and alliances with other key suppliers have positioned our company to be a total solution provider for beverage dispensing equipment and parts.

## 48-Hour Delivery

Any order for stocked items placed before 4 p.m. EST will be shipped within 48 hours. New and custom items may require longer lead times.

## Customer Service

Customer service representatives are available to take your call at 800-334-4875 from 8 a.m. to 7 p.m. EST. Orders can be faxed to 800-572-0881.

## Online Ordering

Log in with your user name and password, and obtain real-time information within a few clicks!

1. Place orders without office hour constraints
2. Obtain up-to-date product and pricing information
3. Track real-time availability
4. View graphics to aid product identification
5. Track existing order status
6. Check your account balance
7. Receive payment information via e-mail
