1 Gallon Concentrate
Makes 128 Gallons!

CONCENTRATED FLOOR CLEANER

Introducing Seventh Generation Professional Concentrated Floor Cleaner made from 99% biobased ingredients. This plant-based cleaner makes up to 128 gallons of solution to remove soil without streaking and smearing, or without leaving behind a film. The Floor Cleaner's powerful clean also eliminates pesky odors, notably from pets, urine, and spilled food. Formulated with care, this fragrance-free cleaner is EPA Safer Choice certified, emits 0% VOCs, and is septic safe.

Seventh Generation Professional prides itself on using **PLANT-BASED INGREDIENTS**, because the **SAFETY** of your **CUSTOMERS** and **EMPLOYEES** is as important to us as it is to you.

Align with the brand that cares about the health of people and the planet and show your customers and staff that their well-being matters.
