DISPENSING PUMPS & ACCESSORIES

DISPENSING PUMPS

TableCraft Products is here to serve you with all your dispensing needs! We offer multiple pumps suitable for dispensing a wide variety of liquids, from thick to thin, and smooth to chunky. Our adapter caps ensure that your pumps can be used with a range of essential storage containers. Constructed from durable, food-grade polypropylene. All pumps and pump accessories are FDA compliant.

OUR PUMPS

Whatever your dispensing needs, we've got you covered!

#66128

1/4 OZ PUMP

This pump is capable of dispensing a range of products, from thin liquids, to thick creams. Perfect for food and beverage service, personal care and janitorial applications, this pump is ideal for use with flavored syrups, condiments and sauces, sanitizers and cleaning products. Not intended for use with products containing particulates. It has a built in threaded collar that allows this pump to be attached to bottles with a standard 28 mm opening. Features a dip tube which can be cut to fit bottles with a depth of 4 1/2 - 11".

#662

1 OZ PUMP

With a round, flat head, this pump allows you to easily and comfortably dispense a wide variety of products including liquids, gels, creams and lotions commonly used in food service, personal care, pharmaceuticals, janitorial and many other industries. Not intended for use with products containing particulates. Easily disassembles for cleaning. Combine with adapter caps to fit many different sized bottles and containers. Features a dip tube which can be cut to fit vessels with a depth of 5 1/2 - 9 1/2". Optional restrictors limit each pump to 1/4, 1/2, or 3/4 oz.

#663

1 OZ PUMP

This pump features a fixed nozzle which does not move while pumping, allowing for controlled dispensing. Dispense products with various viscosities including condiments syrups, janitorial chemicals, personal care products, detergents and many more. Angled spout prevents dripping. Can be used with products containing particulates

5 mm or less. Easily disassembles for cleaning. Combine with adapter caps to fit many different sized bottles and containers. Features a dip tube which can be cut to fit bottles and containers with a maximum depth of 9 1/4".

#664

1 OZ PUMP

The perfect pump for dispensing thick or chunky products such as relish or salsa. This pump also works well with a variety of food products, condiments, cleaning products, personal care products and other liquids, creams and gels. Comes with a nozzle restrictor which allows you to choose a nozzle opening of either 10 mm or 14.5 mm. Can

be used with products containing particulates up to 12 mm. Easily disassembles for cleaning. Combine with adapter caps to fit many different sized bottles and containers. Features a dip tube which can be cut to fit vessels with a depth of 5 1/2 - 13 1/2".

*Pumps 662, 663 and 664 can only be used on containers with a minimum neck size of 38 mm. These same three pumps can also be used with box-in-bag packages. Pump 66128 cannot be taken apart for cleaning. When using this pump with non-perishable food items, it is recommended to clean by filling a vessel with hot, soapy water and running it through the pump, then running clean, hot water through for rinsing. For sanitary reasons, 66128 should be discarded after use with food products that harbor bacterial growth.

ADAPTER CAPS AND STORAGE CONTAINER CROSS-REFERENCE

TableCraft Products offers multiple storage bottles and containers to use with your pumps, as well as adapter caps to fit a variety of standard sized packaging containers. Pumps 662, 663 and 664 can be used with any of the following adapter caps and storage vessels.

WHAT WILL YOUR PUMP FIT?

Whatever the size, we've got the fit for you!

#66128

This pump has a built-in threaded collar which fits bottles that have a standard 28-400 threaded neck. These bottles are commonly used for flavored beverage syrups and 32 oz plastic bottles used to hold sanitation and cleaning products. The pump tube can be shortened to fit our (608J) 8 oz glass jar below (holds 7 fluid ounces with pump attached). This pump is not compatible with adapter caps.

#38MM

This adapter cap allows for use with a variety of threaded bottles and containers with a standard 38 mm opening. This size opening is also common on many 1 Gallon bottles used for cleaning and sanitation products. TableCraft offers multiple bottles compatible with this cap (including our LDPE bottles, shown below).

WHAT WE HAVE TO OFFER

#1032J:
32 oz HDPE Jug

1064J:
64 oz HDPE Jug

1128J:
128 oz HDPE Jug

#89MM

This adapter cap fits threaded containers with a 89 mm opening. TableCraft also offers multiple bottles that are compatible with this cap.

*Optional
Storage Caps
Sold Separately

#110MM

This adapter cap fits with threaded containers with a 110 mm opening. This type of container is commonly used for bulk condiments such as #10 sized jugs.

#NT110MM

This adapter cap is a snap-on top. This cap will fit a standard #3 cylindrical food can. #3 Cylinder Cans: 4¼" dia.

#160MM

This adapter cap is a snap-on top. This cap will fit a standard #10 cylindrical food can. #10 Cylinder Cans: 6¼" dia.

IS 1 OZ TOO MUCH? RESTRICT IT!

Sometimes 1 oz may be too much to dispense at once. We have a solution for you! TableCraft's clip-on pump restrictors are compatible with pump # 662. Choose either ½ oz or ¾ oz, or combine 662-RES + 662-RES75 together will also give you ¼ ounce.
