- **Roll/Stow Pads in CLEANER, Dual Bucket - 32 Qt.**

### SmartColor Cleaning System

- **Our ergonomic cleaning products are available with color-coded enhancements that help your employees easily organize both their equipment and workflow. The results are improved performance, better sanitation and cleaner facilities.**
- **Prevents Cross-Contamination**
  - Distinct color-coding makes it easy to separate tools into their correct areas of use. Restroom tools are kept in the restroom, kitchen tools are kept in the kitchen – reducing bacteria cross-contamination between high- and low-risk areas.
- **Improves Training and Communication**
  - SmartColor is an intuitive visual coding system, removing language and literacy barriers when training a diverse workforce.
- **Elevates Employee Performance**
  - SmartColor enhances the professional appearance of employees and increases their efficiency by organizing the cleaning process.

### Select Your Mop Handle

- **EP24W/EP18R**
