

## Care and Cleaning of Fiberglass Items

**Fiberglass Items Include:** Camtrays<sup>®</sup>, Camlites<sup>®</sup> Trays, Camtread<sup>®</sup> Trays, Treadlite<sup>™</sup> Trays, Non-Skid Versa Camtrays, Non-Skid Versa Room Service Camtrays and Versa Camcovers<sup>®</sup> (plate covers)

With proper care and cleaning Cambro fiberglass items will maintain their appearance for years to come. Below are detailed instructions on how to care for Cambro fiberglass products.

- All fiberglass products need to be washed thoroughly before their initial use.
- All fiberglass items are commercial dishwasher safe. Occasionally, these products need to be washed by hand with:
  - Warm water and soap to prevent build-up. This would depend on the frequency with which the trays are used.
  - Use a Scotch Brite Non Scratch scouring pad or plastic or bristle brush when hand washing.
- Do **not** use abrasives (such as Comet, Ajax, etc., or metal scouring pads).
- Rinse thoroughly with clean water.
- Always make sure that the trays are dry before stacking.

The general rule with **STAINS** is the longer it's been there the harder it is to remove so regular light cleaning will quickly remove stains.

Below are detailed instructions on how to take care of stains on Cambro Camtread Trays.

1. Apply a liberal amount of **Lime Away or Soft Scrub Liquid Gel with Bleach** to the stained area of the tray. (Soft Scrub Total All Purpose Bath and Kitchen Cleanser Lemon Scent 24 OZ bottle)
2. Take a **Scotch Brite Non Scratch scour pad** or plastic or bristle brush and wet it with warm water. (Scotch Brite TM Non Scratch Multi – Purpose Scrub Sponge 42/4”X23/5”, Blue Pak)
3. Apply the scouring pad or plastic or bristle brush to the stained area and rub the affected area in a circular motion.
4. Once the stain is removed rinse off the tray with water.
5. Make sure the trays are dry before stacking.

**Note:** for heavier/stubborn stains repeat steps 1 thru 4.

## Care and Cleaning of Fiberglass Items

Below are detailed instructions on how to take care of stains on Cambro Non-Skid Versa Camtrays.

6. Apply a liberal amount of **Soft Scrub Liquid Gel with Bleach** to the stained area of the tray. (Soft Scrub Total All Purpose Bath and Kitchen Cleanser Lemon Scent 24 OZ bottle)
7. Take a **Scotch Brite Non Scratch scour pad** and wet it with warm water. (Scotch Brite™ Non Scratch Multi – Purpose Scrub Sponge 4 1/4”X2 3/5”, Blue Pak)
8. Apply the scouring pad to the stained area and rub the affected area of the tray in a circular motion.
9. Once the stain is removed rinse off the tray with water.
10. Make sure the trays are dry before stacking.

**Note:** for heavier/stubborn stains repeat steps 1 thru 4.

**Note:** Trays that cannot be washed with bleach but are stained can also be left in direct ultraviolet light and the stain will fade with time.

**Disclaimer:**

Please note that foods such as mustard, coffee, dark soft drinks, berries, fruit juice, green tea, tomato juice, tomato paste, curry and chili paste contain natural pigments that may stain trays if left on the surface for extended periods of time. To prevent staining, clean trays within one hour of use.
