ELEMENTS series

Why Choose Elements?

Made from a revolutionary, extremely strong composite material with a smooth, easy to clean surface. Elements Series is stronger than common wire shelving. It's lighter in weight than Camshelving Premium Series and totally impervious to moisture, chemicals and liquids that can destroy shelving over time. Elements Series is designed for medium to heavy storage use in freezers, coolers, dry storage or warewashing areas. It easily supports the performance demands of a busy foodservice operation.
