EXTRA-HIGH PILE CARPET

HOW TO MEASURE CARPET THICKNESS

*very important step

- 1 Straighten the end of a paperclip.
- 2 Measure through padding from top of subfloor to top of carpet.
- 3 Choose a chair mat with the same or greater depth based on your carpet measurement.

HARD FLOORS

HARD FLOOR

Hard floor chair mats for office and home use. Protects laminate, wood, tile and other hard flooring.

USAGE

Used more than 8 hours a day?

Used by anyone over 200 pounds?

=

Choose a chairmat designed for a thicker carpet

SHAPE & SIZE

- 1 Consider your movement needs, mobile or limited?
- 2 Do you sit at a traditional desk or does it have multiple sides?

LIPPED

Fits compactly under desks. Most popular shape.

RECTANGLE

More versatile shape allows for maximum mobility

WORKSTATION

Contour design fits comfortably between L-shape, U-shape or Corner workstations
