

How to Replace the Grids and Heating Elements on a Carnival King Waffle Iron [3/29/2016]

To Replace the Grids:

Always unplug equipment prior to servicing.

1. Remove the nut on the top of the iron.
2. There is a 5mm Allen head bolt that can now be accessed through the hole. Loosen that bolt.
 - a. Now the waffle iron cover can be pulled aside. Or, you can remove the heating element wires to remove the cover completely.
3. Remove the 2 screws holding the heating element in place. The grid plate can now be replaced.

Repeat steps for other side of iron.

To Replace the Heating Elements:

Always unplug equipment prior to servicing.

1. Follow steps 1 through 3 above.
2. Replace the elements. Make sure the wiring connections will not touch the covers when the grid is reattached.

Repeat steps for other side of iron.
