Optimal Temperature

These units brew coffee at optimum temperatures for a rich, consistent product every time.

Direct Connection

Each machine connects to a ¾" rear mounted water line that fills the reservoir automatically.

Stainless Steel Construction

Sleek stainless steel construction is easy to maintain.

High-Volume Use

These high-volume coffee brewers allow you to brew 3.8 gallons per hour.

Durable Funnel

The units come equipped with a funnel that is made out of rugged stainless steel for a durable, longer-lasting performance than comparable plastic funnels.

Compact and Versatile

Each unit boasts a compact design that occupies minimal countertop space.

Simple Controls

A toggle switch allows for simple brewing and warming of coffee, while a light shows when the unit is brewing or preparing to brew.
