| 17819947 Compatibility Notes - 07/25/2017 |  |
|---|--|
| Model                                     | Notes  |
|   | Used on units with a Carel PGZX controller, cabinet serial number digits 9-12 are after 1506. It your unit has a Carel |
| A-19R                                     | PJEZ controller, use 17815350.   |
| CFD-1RR                                   | Used on units with a Carel PGZX controller, cabinet serial number digits 9-12 are after 1506. It your unit has a Carel |
|   | PJEZ controller, use 17815350.   |
| CFD-1RR-G                                 | Used on units with a Carel PGZX controller, cabinet serial number digits 9-12 are after 1506. It your unit has a Carel |
|   | PJEZ controller, use 17815350.   |
| CFD-2RR                                   | Used on units with a Carel PGZX controller, cabinet serial number digits 9-12 are after 1506. It your unit has a Carel |
|   | PJEZ controller, use 17815350.   |
|   | Used on units with a Carel PGZX controller, cabinet serial number digits 9-12 are after 1506. If your unit has a Carel |
| CFD-2RR-2G                                | PJEZ controller, use 17815350.   |
| CED 3DD                                   | Used on units with a Carel PGZX controller, cabinet serial number digits 9-12 are after 1506. If your unit has a Carel |
| CFD-3RR                                   | PJEZ controller, use 17815350.   |
|   | Used on units with a Carel PGZX controller, cabinet serial number digits 9-12 are after 1506. If your unit has a Carel |
| GDC40 Black                               | PJEZ controller, use 17815350.   |
|   | Used on units with a Carel PGZX controller, cabinet serial number digits 9-12 are after 1506. If your unit has a Carel |
| GDC40 White                               | PJEZ controller, use 17815350.   |
|   | Used on units with a Carel PGZX controller, cabinet serial number digits 9-12 are after 1506. If your unit has a Carel |
| GDC69 Black                               | PJEZ controller, use 17815350.   |
|   | Used on units with a Carel PGZX controller, cabinet serial number digits 9-12 are after 1506. If your unit has a Carel |
| GDC69 White                               | PJEZ controller, use 17815350.   |
| JBC-25                                    | Used on units with cabinet serial numbers where digits 9-12 are after 1510.  |
| JBC-25S                                   | Used on units with cabinet serial numbers where digits 9-12 are after 1510.  |
| JBC-50                                    | Used on units with cabinet serial numbers where digits 9-12 are after 1510.  |
| JBC-50S                                   | Used on units with cabinet serial numbers where digits 9-12 are after 1510.  |
| JBC-65                                    | Used on units with cabinet serial numbers where digits 9-12 are after 1510.  |
| JBC-65S                                   | Used on units with cabinet serial numbers where digits 9-12 are after 1510.  |
| JBC-95                                    | Used on units with cabinet serial numbers where digits 9-12 are after 1510.  |
| JBC-95S                                   | Used on units with cabinet serial numbers where digits 9-12 are after 1510.  |
|   | Used on units with a Carel PGZX controller, cabinet serial number digits 9-12 are after 1506. If your unit has a Carel |
| UBB-2                                     | PJEZ controller, use 17815350.   |
|   | Used on units with a Carel PGZX controller, cabinet serial number digits 9-12 are after 1506. If your unit has a Carel |
| UBB-24-48                                 | PJEZ controller, use 17815350.   |

| UBB-24-48G  | Used on units with a Carel PGZX controller, cabinet serial number digits 9-12 are after 1506. If your unit has a Carel PJEZ controller, use 17815350. |
