412-022D-01 Compatibility Notes - 10/24/2016		
Model	Notes	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HRS3-1S	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HRS3-1HS	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HRS3-1HG-LED	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HRPS3-1S	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HRPS3-1HS	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HRP3-1S	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HRP3-1HS-LED	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HRP3-1HG-LED	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HRP3-1G-LED	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HR3-1S	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HR3-1HS	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HR3-1HG-LED	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HR3-1G-LED	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HFS3-5S	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HFS3-5HS	part (403-893D-01). Older shelves will not fit current production units.	
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original	
HFS3-5HG-LED	part (403-893D-01). Older shelves will not fit current production units.	

	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFS3-5G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFPS3-5S	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFPS3-5HS	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFPS3-5HG-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFPS3-5G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFP3-5S	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFP3-5HS	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFP3-5HG-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFP3-5G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HF3-5S	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HF3-5HS	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HF3-5HG-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HF3-5G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HBR72-1-G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HBR72-1-S	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HBF72-5-G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HBF72-1-S	part (403-893D-01). Older shelves will not fit current production units.

	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HBF72-1-AVA	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HBF72-5-GAV	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HBF72-5-G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HBR72-1-AVA	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HBR72-1-GAV	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HBR72-1-G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HF3-5G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HF3-5HG-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFP3-5G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFP3-5HG-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFPS3-5G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFPS3-5HG-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFS3-5G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HFS3-5HG-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HR3-1G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HR3-1HG-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HRP3-1G-LED	part (403-893D-01). Older shelves will not fit current production units.

	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HRP3-1HG-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HRPS3-1G	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HRPS3-1G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HRPS3-1HG	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HRPS3-1HG-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HRS3-1G	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HRS3-1G-LED	part (403-893D-01). Older shelves will not fit current production units.
	For models manufactured after May 2016. This shelf will retrofit older models but it is not as deep as the original
HRS3-1HG-LED	part (403-893D-01). Older shelves will not fit current production units.
