Modeling Chocolate has a firm consistency for sculpting, modeling and figurines. It can be molded into a variety of shapes and dries firm like chocolate, but remains pliable for reworking. Follow us online for tutorials and inspiration!

Storage: Recommended shipping and storage temperature not to exceed 85° F.

Handling Procedures: Knead product until workable and microwave in 5 second intervals if too firm. Avoid overworking or excessive heat. Shape your desired creation and allow to set. It may be necessary to use additional materials to support your piece (cel former, cotton, armature etc.) until the item is firm enough to hold its shape. Placing your creation in a refrigerator or using food grade cool spray will accelerate the set time. Finished pieces should not be exposed to temperatures over 75°F. If oils are separated from product during shipping, allow the product to cool and knead oils back into product and allow to cool again before using. To color modeling chocolate, add gel, paste or oil based food color when kneading.

Shipping: Retail orders will ship via UPS, ground 3-5 days (US only). All other orders will be FOB from Chester NY. You are free to choose your own freight company and pay transportation directly. You are required to keep all scheduled pick up dates. If pickup scheduled is not met, penalties may apply. Satin Fine Foods can offer comparative transportation rates an transportation charges will be added to the product invoice.

Temperature for distribution and warehousing: Product should be stored/warehoused below 85° F. The temperature of the product is important mostly to the end user and should be below 85° F before handling.

Facility: Our 100,000 sqft custom built facility is Nut Free, Kosher & FSSC 22000 Certified.
