

EXTEND THE LIFE OF YOUR EQUIPMENT

QUALITY

Our water filtration systems are smartly designed to remove sediment, chlorine taste and odor, and color. These systems inhibit scale to keep your equipment running smoothly for longer.

VARIETY

We carry 3 different sizes of filters for use with ice machines, steam equipment, and beverage equipment so you can find the best filter for your needs. C Pure also has a line of multi-cartridge water filtration systems for your largest ice machines and combi-ovens.

VALUE

Thanks to an established partnership with our manufacturers, we are able to cut out the middle-man to offer the best price in the industry.

SIMPLE MAINTENANCE

Twist-in locking cartridges make change-outs easy and improves sanitation.

CARTRIDGE COMPARISON

LONG-LASTING USE

Offer guests great tasting water all while complying with your warranty and maintaining your equipment with C Pure's affordable water filtration.
