## Using Gold-n-Brown™

1. Follow the first three steps of “Cooking Manually by Probe” or “Cooking Manually by Time” from the front of this sheet.
2. Touch the **Gold-n-Brown** icon. 
3. Select the desired Gold-n-Brown level and touch the corresponding icon. 
4. Touch the **Start** icon. 

## Programming a Recipe

1. Touch the **Add a Recipe** icon. 
2. Follow the first three steps of “Cooking Manually By Probe” or “Cooking Manually By Time” from the front of this sheet for each cooking step.
3. If there is more than one cooking step, touch the **Write** icon between each step. 
4. After the last cooking step, touch the **Confirm Changes** icon. 
5. A touchpad will appear. Input the name of the recipe and press the **Confirm Changes** icon. 
6. If at any time you need to pause the oven during a program, touch the **Rest** icon. 

**NOTE:** To shut the oven off, press and hold  for five seconds. The red light will appear indicating that the oven will begin the shut down process.

To force shut down in the rare event the control locks up, press and hold  for ten seconds.

## Cleaning The Appliance

1. Touch the **Cleaning** icon. 
2. Touch the **Water On** icon. 

If the appliance is too hot, a warning screen appears. Open the appliance door to allow the oven to cool. When the appliance has finished cooling, begin the cleaning procedure again.

3. Select **Rinse, Light, Normal, or Heavy-duty** cleaning.   
Rinse Light Normal Heavy-duty
4. For **Light, Normal, or Heavy-duty**, insert appropriate number of CombiClean® tabs as directed by the touchscreen, or spray CombiClean liquid cleaner inside the oven. Close the oven door and touch the **Start** icon. 
5. After the cleaning cycle is complete, leave the appliance door open approximately 2" (50mm) to allow the appliance to air dry.
