

CHICOPEE® BUILDING CARE DURAWIPE® TOWELS

Absorbency & Strength

Durawipe® Towels are ideal for repeated-use, heavy-duty industrial and institutional cleaning applications.

Made in a hydroentangling process with wood pulp and polyester, these wipes are known for their superior absorbency and strength, wet or dry.

Additionally, Durawipe® Towels are available in two colors, white or blue, and with a smooth or creped surface.

Value built into every wipe.

Durawipe® Towels are engineered to provide value in every wipe. Chicopee® controls the design and quality of their towels from fiber to finished goods, offering the highest level of service.

CHICOPEE® DURAWIPE® TOWELS

- + Highly Absorbent – wood fibers soak up liquids quickly
- + Soft and Bulky – will not damage sensitive surfaces
- + Compatible with Oils/Solvents – clean up messy spills easily
- + Economical and Convenient – reduced usage and easy to grab put-ups
- + Different Colors and Textures – blue or white, smooth or creped
