

**GERANIUM FABRIC SOFTENER**

INGREDIENTS	WHAT IS IT?	WHAT DOES IT DO?
Water	deionized/demineralized water that has passed through filters to remove minerals	holds all ingredients together in solution
Dihydrogenated Palmolethyl Hydroxyethylmonium Methosulfate	esterquat from palm oil	softens fabrics
Alcohol Denat.	corn-derived ethanol	reduces viscosity and holds all ingredients together in solution; aids in fast evaporation or give lift to fragrance
Fragrance	mixture of high-quality essential oils and synthetic fragrance ingredients	smells great and provides an aromatherapeutic experience
Geranium Maculatum (Geranium) Oil	plant-derived essential oil	provides fragrance
Rosa Centifolia (Rose) Flower Oil	plant-derived essential oil	provides fragrance
Eugenia Caryophyllus (Clove) Flower Oil	plant-derived essential oil	provides fragrance
Polysorbate 20	plant based emulsifier	ensures even dispersion and stability of fragrance
Calcium Chloride	mineral salt	adjusts product thickness and flow and stability for enzymes
Citric Acid	fruit acid	modifies the pH of the formula for optimum cleaning and stability
Methylisothiazolinone	non-formaldehyde preservative	synthetic product preservative, < 1% of total volume to ensure shelf life stability
Benzisothiazolinone	non-formaldehyde, preservative	synthetic product preservative, < 1% of total volume to ensure shelf life stability

**Contains Fragrance Allergens**

Fragrance includes linalool; 3,7-dimethyloct-1-en-3-ol; gamma-undecalactone; geraniol; nerol; citronellol; citronellyl formate; benzyl acetate; phenethyl phenylacetate; phenethyl alcohol; phenylisohexanol; (z)-3-hexenyl salicylate; amyl salicylate; menthone; methyl dihydrojasmonate; eugenol; dipropylene glycol; choux yu
