

Care & Maintenance: Drinkware

G.E.T. drinkware products are known for their unique, patented designs and wide selection of sizes and colors. G.E.T. drinkware is crafted from premium, shatter-proof materials, providing a longer commercial service life. Through minimal proper care & maintenance you can maintain the clarity and quality of your drinkware. Please review and follow the product care instructions below and feel free to contact our customer service representatives with any questions.

Care Benefits: *If you properly care for your plastic drinkware as noted, your drinkware has the ability to outlast the breakage potential of glassware, saving money and time, as well as operational uncertainty and liability.*

	DO	DON'T
General Care	<ol style="list-style-type: none"> G.E.T. plastic drinkware products should be handled like any fine glassware. All G.E.T. plastic drinkware products are commercial dishwasher safe. 	<ol style="list-style-type: none"> Do not expose plastic drinkware to direct flame. Do not microwave unless otherwise noted. To avoid scratching, do not strike plastic drinkware products with or on any hard surface. To prevent scratching, do not use a bar brush to care for plastic drinkware.
Dishwashing Care	<ol style="list-style-type: none"> Wash plastic drinkware items as soon as possible to maintain clarity and quality. To avoid scratching, use only non-abrasive sponges and pads to clean plastic drinkware products such as the Light Duty Scrub Pad 9030 from Scotch-Brite™ Electric glass washers should only be used if equipped with cloth brushes. <p><i>Recommended ECOLAB detergents:</i> <i>Solid Power XL (high-temp)</i> <i>Apex Power Plus (high-temp)</i> <i>Apex Ultra (hard water, high-temp)</i> <i>Solid Ultra Klene Plus (low-temp)</i></p> <p><i>Recommended ECOLAB rinse agents:</i> <i>Rinse Dry (high-temp)</i> <i>Solid Brilliance (high-temp)</i> <i>Apex Rinse Aid (high-temp)</i> <i>Apex HD Rinse Aid (hard water, high-temp)</i> <i>Ultra Dry (low temp)</i></p> <p><i>Recommended ECOLAB sanitizers:</i> <i>Eco San</i> <i>Ultra San</i></p>	<ol style="list-style-type: none"> To prevent scratching and damage, do not overload your dishwasher rack. To prevent scratching, do not use harsh or abrasive scouring products such as steel wool or any metal pads to wash plastic drinkware items. Do not use chlorine bleach or chlorine-based sanitizing solutions when caring for plastic drinkware products.
Presoaking Care	<ol style="list-style-type: none"> To avoid protein build-up and cloudiness caused from oils in the dishwasher, it is recommended to presoak plastic drinkware items before dishwashing. <p><i>Recommended presoak agents:</i> <i>Cascade® granulated powder</i></p>	<ol style="list-style-type: none"> Do not use harsh or abrasive scouring products such as steel wool or any metal pads to care for plastic drinkware items. Do not use chlorine bleach or chlorine-based sanitizing solutions when caring for plastic drinkware products.
