Proctor Silex
C O M M E R C I A L

Description: Ready Light Update

Products: Proctor Silex® Commercial Coffee Urns

Models Affected: 45040, 45060, & 45100

The functionality of the ready light has been changed. The light no longer turns on when the urn is initially plugged in; it will illuminate once the urn reaches brewing temperature.

The operation manual is being updated to reflect this change.

Thank you for your continued support of Hamilton Beach® Commercial products.
