

# SECURITY CAGE ASSEMBLY INSTRUCTIONS

**REGENCY**  
Commercial  
Space Solutions

1

Lay out all components.

2

Assemble all shelves. *Check that top of the top shelf and the top of the bottom shelf are **52 1/2"** apart for panels to latch on.*

3

Attach the two back and two side panels to shelves. Be sure that panel hooks go through the shelves.

4

Feed connectors through panels and underside of shelf to secure cage to shelf. *See pictures for location of each connector.*

6

Affix the front doors.  
*Ensure that the left door and right door  
are on the correct sides.*

7

Check the foot pieces that extend beneath  
the bottom shelf to prevent the door from  
being removed.

8

Close the door and lock it.  
Assembly complete!
