

Lowest Loading Height

Easy To Service Top-Mount Modular System

Sliding Door Protects Gaskets

Heavy-Duty Cabinet & Caster Rail System

RMC-SERIES MILK COOLERS Single & Double Access

RMC-Series Milk Coolers with the top-mounted refrigeration system support your need for reliable temperature maintenance and equipment longevity, while saving maintenance time and money. This unit incorporates Traulsen's rugged, 100% stainless steel cabinet design with an easy-to-remove modular forced air system. To withstand the forces of crate loading, we've reinforced the bottom and added dunnage racks. And thinking of your kids, we've dropped the cabinet closer to the floor so even your smallest customers can serve themselves.

The Traulsen Milk Cooler: Superior temperature maintenance and long-lasting durability, now in a cooler cabinet.

Forced Air System

>> Traulsen Milk Coolers Help You:

Reduce Costs ...

- Top-breathing system ingests less dirt prolonging compressor life
- Long-lasting unit made of 100% stainless steel with reinforced bottom and dunnage racks
- Protected gasket not exposed to crate loading force

Save Labor ...

- Easy-to-remove modular refrigeration system
- Factory-installed casters with caster rails
- EZ-Clean Gasket made with sanitizer-friendly Santoprene®

Support Food Safety ...

- Forced air design circulates a consistently cool blanket of air surrounding product

Support Service-Line Design ...

- Lower cabinet provides easy access for shorter children
