4. First Aid Measures

Description of First Aid Measures

- **After inhalation:** Remove to fresh air. If not breathing, give mouth to mouth resuscitation. If breathing is difficult, give oxygen. Call a physician as excessive exposure may cause irritation to the upper respiratory system.
- **After Skin Contact:** wash with soap and water. Consult a physician if irritation persists.
- **After Eye Contact:** irrigate with flowing water at least ten minutes. Hold lids open as it helps prevent scratching and minimize irritation. Seek medical attention as material may become embedded.
- **After swallowing:** Do not induce vomiting. Call a physician and/or poison control center immediately.

5. Firefighting Measures

EXTINGUISHING MEDIA:

Suitable extinguishing agents: Water fog, standard foam, CO₂, Dry chemical, Halon.

Special Hazards arising from the substance

- Vapors are heavier than air and may travel along the ground to sources of ignition; reports have been made of ignition from pilot lights, heaters, etc. after vapors have been moved by ventilating fans.
- Contents under pressure. Exploding cans may travel great distances discharging burning materials.
- Exposure to temperatures over 49°C (120°F) may cause cans to burst.

Hazardous Decomposition Products

- Oxides of Carbon
- Nitrogen

Advice for Firefighters:

Protective Equipment: wear self- contained breathing apparatus with a full face piece operated in a positive pressure mode.

Water fog may be used to help cool containers to help minimize pressure build-up.

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

- Wear PPE as necessary.
- Ensure adequate ventilation; excessive concentration of vapors are flammable
- Keep away from ignition sources

Environmental Precautions

- Do not allow to enter sewers/ surface or ground water.
- Do not puncture or incinerate empty or full cans.

Methods and material for containment and cleaning up

- Clean with soap and water
- Once spills or leaks are cleaned up, dispose of waste in accordance with governmental ordinances.

7. Handling and Storage

Handling:

Precautions for safe handling

- Pressurized container, do not pierce or burn, even after use.
- Do not use if spray button is missing or defective.
- Do not spray on or near open flame or other incandescent material.
- Do not smoke while using.
- Do not puncture, cut, weld, solder, drill, grind, or expose container to heat, flame, sparks, or other sources of ignition.
- Use chemical resistant gloves if the possibility of prolonged contact exists
- General ventilation should be adequate for normal use; if using in a confined area, use necessary means of ventilation to keep from exceeding the TLV.

ACCORDING TO REGULATION: 1907/2006

7. Handling and Storage (cont.)

Precautions for Safe Storage

- Store in cool dry place with temperatures below 49°C (120°F)
- Avoid direct sources of heat and ignition
- Do not use deformed or damaged cans
- Keep out of the reach of children
- Consult local fire and insurance representatives for specific storage requirements in your area

8. Exposure Controls/personal protection

Occupational exposure limits:

US. OSHA Table Z-1 Limits for Air Contaminants (29CFR 1910.1000)

Components	Type	Value

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Type	Value
Butane (CAS 106-97-8)	TWA	1900mg/m ³ 800 ppm
Propane (CAS 74-98-6)	TWA	1800mg/m ³ 1000 ppm

Exposure Control

General protective and hygienic measures:

The usual precautionary measures for using aerosols should be followed.

- Use in a well ventilated area
- Do not spray in eyes or face
- Do not intentionally inhale
- Remove soiled and contaminated clothing
- Wash hands and exposed skin
- If used in an enclosed area without proper ventilation where the TLV is likely to be exceeded, use a NIOSH/MSA approved respirator

Personal Protective Equipment

If evidence of sensitivity to product is experienced:

Skin: Wear gloves and cover exposed skin

Eyes: Safety glasses w/ side shields if sensitivity to the eyes occurs.

Respiratory: If permissible levels are exceeded use NIOSH/MSA approved respirator
