

## **SAFETY DATA SHEET**

### **SECTION 1: Identification**

**Product identifier**

**Trade name:** Nitrile Disposable Powder Free Glove

**Relevant identified uses of the substance or mixture:** Advised caution usage while handling Hazardous Chemicals.

**Application of the substance / the mixture:** Disposable glove

**Details of the supplier of the safety data sheet**

**Manufacturer/Supplier/ Information Department and Emergency Contact:**

**Lavex Industrial**

**Address:** 2205 Old Philadelphia Pike, Lancaster, PA 17602

**Tel:** 717-392-7974

**Fax:** 717-392-8133

### **SECTION 2: Hazardous Identification**

No significant or potential hazardous ingredient present in free state in finished glove.

**Classification according to Directive 67/548/EEC or Directive 1999/45/EC :- N/A**

This product contains Nitrile rubber which may cause allergic reactions in rare cases.

Other components used in making gloves also may cause rare cases allergic reaction in some individuals.

**Information concerning particular hazards for human and environment:**

No other relevant information available.

**Classification system:**

None

**Code letter and hazard designation of product:**

**Hazard-determining components of labeling:**

No further relevant information available.

**Risk phrases:**

Harmful if swallowed as can cause choking.

**Safety phrases:**

If user or a patient is allergic to Nitrile rubber or experience any discomfort, discontinue use immediately and consult with a physician.

**Classification system:**

NFPA ratings (scale 0 - 4)

Health = 0

Fire = 1

Reactivity = 0 (Contd.  
on page 2) USA

HMIS-ratings (scale 0 - 4)

HEALTH	0
FIRE	1
REACTIVITY	0

Health = 0

Fire = 1

Reactivity = 0

**Other hazards****Results of PBT and vPvB assessment**

PBT: Not applicable.

vPvB: Not applicable.

**SECTION 3: Composition/Information Ingredients****Chemical characterization: Mixtures**

There is no chemical present in Free State in the gloves and thus cannot induce any reactivity except some rare cases of skin irritation to some individuals from nitrile rubber. The below chemicals are used in the manufacturing process.

**Description: Mixture of the substances listed below with nonhazardous additions.**

**Dangerous components:**

No dangerous chemical used in manufacturing process as per the available SDS from raw material suppliers.

## **PHYSICAL DATA – Composition**

NBR	:	85 - 95
Ammonia	:	0.20 - 0.60
Terric 320	:	0.03 - 0.08
Zinc oxide	:	1.00 - 2.00
ZDEC +ZDBC	:	0.50 – 1.30
Sulphur	:	0.80 - 1.40
Titanium Dioxide	:	1.20 -2.20 (Not used in Black)
Potassium hydroxide	:	0.50 - 0.90
Blue / Black / Orange Pigment	:	0.50 - 1.50 (Not used in White)

### **SECTION 4: First-aid measures**

#### **Description of first aid measures**

##### **General information:**

This product contains nitrile rubber which may cause allergic reactions in rare case. Other components used in making gloves also may cause allergic reaction in rare cases to some individuals. It is advised to remove the glove immediately. Users should replace the product frequently, wash and clean their hands prior to donning the product again to reduce skin fatigue and roughening on the areas in frequent contact with the product.

##### **After inhalation:** Void

**After skin contact:** If user or a patient is allergic to nitrile rubber or experience any discomfort, wash with plenty of water and discontinue use immediately and consult with a physician.

**After eye contact:** Flush the eyes with water as precaution.

**After swallowing:** No further relevant information available except can cause choking.

##### **Most important symptoms and effects, both acute and delayed**

There are no evidence of any adverse effects from available information of sulfur, zinc oxide and titanium dioxide. However, presence of residual ZDEC, ZDBC and anti-oxidants on the product surface may cause delayed type IV hypersensitivity e.g. allergic contact dermatitis and chemical allergy. Reactions include itching, burning sensations, blistering, reddening and pain. In chronic cases, users may develop dry and thickened skin, cracks, peeling and crusting.

## **Indication of any immediate medical attention and special treatment needed**

No further relevant information available.

## **SECTION 5: Fire-fighting measures**

### **• Extinguishing media**

#### **Suitable extinguishing media**

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

#### **Specific hazards arising from the chemical**

No fire or explosion hazards are associated with these products. They will melt at elevated temperatures.

#### **Special protective actions for fire-fighters**

Use standard procedure for combustion material fires, including approved self-contained breathing apparatus.

#### **Further information**

No data available.

## **SECTION 6: Accidental release measures**

### **Personal precautions, protective equipment and emergency procedures**

These products are solid articles and are not subject to leak or spill.

Environmental precautions – N/A

Methods and materials for containment and cleaning up – N/A

## **SECTION 7: Handling and storage**

### **Precautions for safe handling**

Do not store gloves where temperatures may rise above 40°C / 140°F. Store them in a cool place. Open boxes of gloves should be shielded from exposure to direct sun or florescent lighting to prevent discoloration. Nitrile gloves should not be stored in damp or high humidity areas.

Conditions for safe storage, including any incompatibilities – N/A

Specific end use(s) – N/A

## **SECTION 8: Exposure controls/personal protection**

### **Appropriate engineering controls**

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

### **Individual protection measures, such as personal protective equipment (PPE)**

#### **Eye/face protection**

Not necessary under conditions of intended use.

#### **Skin protection**

Not necessary under conditions of intended use.

#### **Body protection**

Not necessary under conditions of intended use.

#### **Respiratory protection**

Not necessary under conditions of intended use.

#### **Thermal hazards**

N/A

#### **Environmental exposure controls**

N/A

## **SECTION 9: Physical and chemical properties**

### **Information on basic physical and chemical properties**

Appearance/form

Nitrile gloves

Odor

Odor threshold pH

Melting point/freezing point

Initial boiling point and boiling range

Flash point Evaporation rate Flammability (solid, gas)

Upper/lower flammability limits Upper/lower explosive limits Vapor pressure

Vapor density

Relative density

Solubility(ies)

Insoluble in water

Partition coefficient: n-octanol/water Auto-ignition temperature Decomposition temperature Viscosity

Explosive properties

Oxidizing properties

### **Other safety information**

Avoid contact with copper content material.

## **SECTION 10: Stability and reactivity**

**Reactivity** - Stable.

**Chemical stability** - Stable.

**Possibility of hazardous reactions** – N/A

**Conditions to avoid** – N/A

### **Incompatible materials**

Gloves can be contaminated if they come in contact with copper content material.

### **Hazardous decomposition products**

In a fire, these products may produce a black smoke.

## **SECTION 11: Toxicological information**

No further relevant information available

## **SECTION 12: Ecological information**

### **Toxicity**

No data available.

### **Persistence and degradability**

No data available.

### **Bio-accumulative potential**

No data available.

### **Mobility in soil**

No data available.

### **Results of PBT and vPvB assessment**

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted.

### **Other adverse effects**

No data available.

## **SECTION 13: Disposal considerations**

### **Disposal of the product**

Refer to applicable local, state, and federal regulations.

### **Disposal of contaminated packaging**

Dispose of as unused product.

**Waste treatment-** N/A

**Sewage disposal** – N/A

**Other disposal recommendations** – N/A

## **SECTION 14: Transport information**

**DOT (US)** – Not a dangerous goods

**IMDG** - Not a dangerous goods

**IATA** - Not a dangerous goods

## **SECTION 15: Regulatory information**

- Safety, health and environmental regulations/legislation specific for the substance or mixture
  - Sara
  - Section 355 (extremely hazardous substances): Void
  - Section 313 (Specific toxic chemical listings): Void
  - TSCA (Toxic Substances Control Act): Void
  - California Proposition 65 Void
  - Chemicals known to cause cancer: Void
  - Chemicals known to cause reproductive toxicity for females: Void
  
  - Chemicals known to cause reproductive toxicity for males: Void
  - Chemicals known to cause developmental toxicity: Void
  - DSL/NDSL (Canada) Void
  - Cancerogenity categories Void
  - EPA (Environmental Protection Agency) Void
  - Product related hazard information's: Void
  - Hazard-determining components of labeling: Void
- Not listed as hazardous.

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.  
And REACH compliance

**Risk phrases:**

Nitrile gloves may induce stray cases of skin irritation in some individuals.

· Safety phrases:

**Remove if any sign of irritation felt.**

· National regulations:

Void

· Technical instructions (air):

Void

· Water hazard class:

Void

**SECTION 16: Other information**

**Conformity:**

- FDA 510K
- EN 455 (1,2 &3)
- ASTM D3578-95
- ASTM D3577-91
- FDA 21 CFR 177.2600 food grade contact
- Overall migration in accordance to European regulation 1935/2004
- Acute System Toxicity Test (ISO 10993-10)
- Primary Skin Irritation study in Rabbits (ISO 10993-10)
- Dermal Sensitization Study Testing Guinea Pig (ISO 10993-10)
- In vitro Cytotoxicity study (ISO 10993 part 5 & part 12)
- PPE Regulation 2016/425

The information presented herein, while not guaranteed, to the best of our knowledge and belief, is true and accurate as of the date hereof. No warranty, representation or guarantee, express or implied, is made regarding accuracy, performance, stability, reliability or use. This information is not intended to be all-inclusive, because the manner and conditions of use, handling, storage and other factors may involve other or additional safety or performance considerations. The user is responsible for determining the suitability of any material for a specific purpose and for adopting such safety precautions as may be required. Lavex Industrial does not warrant the results to be obtained in using any material, and disclaims all liability with respect to the use, handling or further processing of any such material. No suggestion for use is intended as, and nothing herein shall be construed as, a recommendation to infringe any existing patent or to violate any federal, state or local law or regulation. User assumes all risks. In the interests of continual product improvement, specifications subject to change without notice. The information contained in this sheet relates only to the specific material designated herein and does not relate to use in combination with other material or in any process.
