

Material Name: PAM Liquid Trigger

Section 1: Identification

- 1.1 Product trade names:** **PAM Liquid Trigger**
Synonyms: Non-Aerosol Cooking Spray, PAM Olive Oil Spray
Chemical Name: Predominantly Triglycerides
- 1.2 Product Class:** Vegetable Oil Spray
Product Codes: 6414463110
CAS/EC Number: Mixture (composition detailed in Section 3)
Intended Use: Cooking Spray (food grade)
- 1.3 Manufacturer:**
ConAgra Foods®
1 ConAgra Dr.
Omaha, NE 68102
United States
www.conagrafoods.com
General Phone Number: Customer Service
- 1.4 Emergency telephone:**
1-800-424-9300

Section 2: Hazard(s) Identification

- 2.1 Classification:**
Serious Eye Damage / Eye Irritation –Category 2B
Skin Irritation – Category 3
- 2.2 Labeling:**
Pictograms:

- Signal Word: DANGER
- Hazard Statements: H316 – Causes mild skin irritation
H320 – Causes eye irritation
- Precautionary Statements: P101 – If medical advice is needed, have product container or label at hand.
P102 – Keep out of reach of children.
P264 – Wash exposed areas of the body thoroughly after handling.
- Response: P305 + P351 +P338 – IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P332 + P313 – If skin irritation occurs: Get medical advice/attention.
- 2.3 Other Hazards Which Do Not Result In Classification:** Store and dispose of contents and container according to local/state/federal regulations. Use only as directed. Product may cause acute skin or eye irritation. Inhalation of mist or vapors may cause acute respiratory irritation. Keep out of the reach of

Material Name: PAM Liquid Trigger

Section 2: Hazard(s) Identification

children: choking hazard, cap contains small parts.

Section 3: Composition/Information on Ingredients

Hazardous Components

Chemical Name	EINECS/EC	CAS	%(wt)
Ethyl Alcohol (food grade)	200-578-6	64-17-5	2 to 8%

Non-Hazardous Components

Chemical Name	EINECS/EC	CAS	%(wt)
Olive Oil - Certified Extra Virgin	232-277-0	8001-25-0	85 to 95%
Soy Lecithin	232-307-2	8002-43-5	2 to 8%

Section 4: First-Aid Measures

4.1 Description of first aid measures:

Inhalation: If victim is unconscious, seek medical attention at once.

Skin Contact: If skin irritation occurs: seek medical advice/attention.

Eye Contact: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: seek medical advice/attention.

Ingestion: Not applicable, product is intended for ingestion.

4.2 Most important symptoms and effects:

Inhalation: Mist or vapors may cause acute respiratory irritation. Under normal conditions of use, no chronic effects are expected.

Skin Contact: Possible irritant under conditions of occupational exposure. Under normal conditions of use, no chronic effects are expected.

Eye Contact: Possible irritant under conditions of occupational exposure. If sprayed directly into eye severe irritation may occur.

Ingestion: No effects expected.

4.3 Indication of any immediate medical attention and special treatment needed: See Section 4.1. All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Section 5: Fire-Fighting Measures

5.1 Extinguishing media: SMALL FIRES: Dry chemical, CO₂, Halon, or alcohol-resistant foam. LARGE FIRES: Dry chemical, CO₂ or alcohol-resistant foam.

5.2 Special hazards arising from the substance or mixture: Product is cooking oil and will be ignited by heat, sparks or flames. The product has a flash point of 96.3°C (205.3°F). Improper storage or disposal of oily fabrics (i.e. rags, paper) may result in spontaneous combustion. Carbon oxides will be generated from combustion.

5.3 Advice to firefighters: As in any fire, firefighters should wear standard turn-out gear, including self-contained breathing apparatus (SCBA). Keep containers cool with water spray but do **NOT** use water to put out fires.

Material Name: PAM Liquid Trigger

Section 6: Accidental Release Measures

- 6.1 Personal precautions, protective equipment and emergency procedures:** Wear appropriate protective equipment and clothing during clean-up as recommended in Section 8. Use caution and do not move damaged containers without proper precaution to prevent increasing size of release. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). As an immediate precautionary measure, isolate spill or release area for at least a radius of 50 meters (150 feet).
- 6.2 Environmental precautions:** Prevent entry into waterways, sewers, or confined areas. Should a release of this product enter a US waterway and cause a film or sheen, the National Response Center (NRC) must be notified within 24 hours at (800) 424-8802.
- 6.3 Methods and materials for containment and cleaning up:** Use absorbent material such as dry earth, sand or other non-combustible material to cover spill. Transfer absorbed material to containers and dispose of according to local, regional, or federal regulations. Use only clean non-sparking tools to collect absorbed material. Product may be disposed of as ordinary solid waste.
- 6.4 Reference to other sections:** Use information obtained throughout this SDS to be fully prepared in case of accidental release.

Section 7: Handling and Storage

- 7.1 Precautions for safe handling:** Take precaution to prevent slips and falls in and around areas of repeated use, where drift of aerosolized oil may collect. Keep away from heat and sparks.
- 7.2 Conditions for safe storage, including any incompatibilities:** Store below 120°F (48.8°C). Store in a cool/low-temperature place away from heat and ignition sources. The product is incompatible with strong oxidizers.
- 7.3 Specific end uses:** See Section 1 for intended uses.

Section 8: Exposure Controls/Personal Protection

- 8.1 Control parameters:** The exposure limits shown below are for guidance only. Follow applicable geographical jurisdictional regulations. An exposure limit for the product as a whole does not exist. Limits below are individual ingredients of the product and may not apply based on physical state and percentage concentration of the ingredient in the product.

Substance Name	Source	Exposure Limit
Olive Oil- ⁽¹⁾ ⁽²⁾	NIOSH REL	10 mg/m ³ (T) / 5 mg/m ³ (R)
	NIOSH IDLH	-- ⁽³⁾
	OSHA PEL	15 mg/m ³ (T) / 5 mg/m ³ (R)
	ACGIH TLV	--
Ethyl Alcohol	NIOSH REL	1000 ppm
	NIOSH IDLH	3300 ppm (10% LEL)
	OSHA PEL	1000 ppm
	ACGIH ⁽⁴⁾	1000 ppm (STEL/CEIL)

1. NIOSH REL presented is for vegetable oil mist, total (T) and respirable fractions (R).
2. OSHA PEL is for vegetable oil mist; total (T) and respirable fractions (R).
3. "--" – No exposure limit
4. ACGIH exposure limit for ethyl alcohol is a short-term exposure limit/ceiling limit.
5. No exposure limits exist for Soy Lecithin.

8.1.1 Currently recommended monitoring procedures: No recommendations.

8.1.2 Exposure guidelines for air contaminants, if any: See Section 8.1

Material Name: PAM Liquid Trigger

Section 8: Exposure Controls/Personal Protection

8.1.3 DNELS and PNECS for exposure scenarios: Information not available at this time.

8.1.4 Control banding for risk management: Use good industrial hygiene practice, wear appropriate PPE and use local ventilation.

8.2 Exposure Controls:

8.2.1 Appropriate engineering controls (occupational/manufacturing): Use local exhaust ventilation when possible. Ventilation should effectively remove and prevent buildup of any aerosolized oils and fumes (vapors) generated from the use or handling of this product.

8.2.2 Individual protection methods (occupational/manufacturing conditions): Use good industrial hygiene practices in handling this product or individual components of this product. Eye wash stations should be available. Wash potentially exposed skin thoroughly with water and mild soap after use. If irritation or redness occurs treat symptomatically or consult a doctor immediately. Eye protection, protective clothing and gloves may be worn for protection. In case of eye contact flush with plenty of clean, potable water, for at least 15 minutes. Remove contacts if easy to do so. Seek medical attention immediately. Avoid direct contact with skin and eyes. Wash contaminated skin before eating, drinking, or using the restroom.

Eye/Face: None required for normal handling. Safety glasses with side shields or goggles should be worn under conditions of occupational exposure.

Skin: None required for normal handling. Protective clothing and gloves should be worn under conditions of occupational exposure. Wear slip resistant shoes where oil mist accumulates. Wash exposed skin thoroughly with potable water and mild soap after handling.

Respiratory: None required for normal handling. If airborne concentrations are above the applicable exposure limits, use NIOSH approved respiratory protection.

Section 9: Physical and Chemical Properties

Physical State:	Liquid
Color:	Clear to light green/gold
Odor:	Odorless
Odor Threshold:	Not applicable
Melting Point:	No data available
Freezing Point:	No data available
Initial Boiling Point:	Not applicable to food grade oils
Flammability (Solid, Liquid, Gas):	Cooking oil is flammable
Lower and Upper Explosion Limits/Flammability Limit:	No data available
Flash Point:	205.3°F (96.3°C)
Auto-Ignition Temperature:	No data available
Decomposition Temperature:	Not evaluated
pH:	Not applicable
Kinematic Viscosity:	No data available
Solubility:	Slightly soluble in water

Material Name: PAM Liquid Trigger

Section 9: Physical and Chemical Properties

Partition Coefficient:	No data available
Vapor Pressure	No data available
Density (and/or Relative Density):	No data available
Relative Vapor Density:	> 1 (Air=1)
Particle Characteristics:	Not applicable

Section 10: Stability and Reactivity

10.1 Reactivity: Ingredients may react with incompatible materials. Product may react with strong oxidizers, reducing agents, and acids.

10.2 Chemical stability: Stable under normal temperatures and pressures.

10.3 Possibility of hazardous reactions: Product is flammable.

10.4 Conditions to avoid: Store below 120°F (48.8°C). Do not expose to open flame or ignition sources.

10.5 Incompatible materials: Product may react with strong oxidizers, reducing agents, and acids. Product is flammable.

10.6 Hazardous decomposition or byproducts: Carbon oxides will form. Hazardous polymerization will not occur.

Section 11: Toxicological Information

11.1 Information on toxicological effects:

Acute and Chronic Exposure and Symptoms:

Inhalation: Acute: Under normal conditions of use, no acute effects are expected. Possible irritant under conditions of occupational exposure.

Chronic: Under normal conditions of use, no chronic effects are expected.

Skin: Acute: Possible irritant under conditions of occupational exposure. Under normal conditions of use, no acute effects are expected.

Chronic: Under normal conditions of use, no chronic effects are expected.

Eye: Acute: Possible irritant under conditions of occupational exposure. If sprayed directly into eye severe irritation may occur.

Chronic: Under normal conditions of use, no chronic effects are expected.

Ingestion: Acute: No effects are expected. Product is intended for preparing foods.

Chronic: No effects are expected. Product is intended for preparing foods.

Numerical Measures of Toxicity

No data is available for the product as a whole. Individual measures of toxicity are listed below:

<u>Component</u>	<u>CAS #</u>	<u>Concentration</u>	<u>Toxicity Data</u>
Soy Lecithins	8002-43-5	2 - 8%	Acute toxicity: Rat, Oral (LD ₅₀): >8 mL/kg
Ethyl Alcohol	64-17-5	9% - 17%	Acute Toxicity: Rat, Oral (LD ₅₀):7060 mg/kg; Rat, Inhalation (LC ₅₀): 20000 ppm/10H Irritation: Rabbit, Eye 100 mg/4S rinse MOD; Rabbit, skin 20 mg/24H MOD Reproductive: Rat, Oral- TDLo:147 mg/kg (1-21D preg)

Material Name: PAM Liquid Trigger

Section 11: Toxicological Information

Carcinogenicity

Ethyl alcohol is an ACGIH A3 Carcinogen – confirmed animal carcinogen with UNKNOWN relevance to humans.

Respiratory/Skin Sensitizers

Product is not a respiratory or skin sensitizer.

Section 12: Ecological Information

- 12.1 Ecotoxicity:** Product has not been studied as distributed.
- 12.2 Persistence and degradability:** Product has not been studied as distributed.
- 12.3 Bioaccumulative Potential:** Product has not been studied as distributed.
- 12.4 Mobility in soil:** Product has not been studied as distributed.
- 12.5 Other adverse effects:** Product has not been studied as distributed.

Section 13: Disposal Considerations

13.1 Waste treatment methods:

General Product Information: Product and container should be disposed of according to federal, state and local regulations.

Section 14: Transport Information

Not classified as a dangerous good.
 Transportation in bulk according to Annex II of MARPOL 73/78 and the IBC Code: Not applicable.

Section 15: Regulatory Information

15.1 Safety, health, and environmental regulation: General Product Information:

NFPA:

Health – 0
 Fire – 1
 Instability – 0
 Special – None

Inventory				
Component	CAS	Canada DSL	Canada NDSL	TSCA
