Loosens And Lifts Baked-on Food & Grease From Griddle Surfaces • Heat Activated

GENERAL DESCRIPTION:

GRIDDLE KLEEN CHROME is a heat-activated, glycerin-based grill and griddle cleaner for use in commercial and institutional kitchens. This fast-acting formula easily loosens and lifts cooked on grease and soil, eliminating the need for scrubbing, scraping, and scouring. GRIDDLE KLEEN CHROME is also nonflammable, non-toxic, and safe for use on hot surfaces, so there is no need to shut down the grill prior to use.

DIRECTIONS:

Pour the contents of one pack evenly over hot griddle surface (300°–350°F). Immediately spread GRIDDLE KLEEN CHROME over entire surface and scrub as needed. Then, wipe or squeegee into grease trap. Turn off griddle. Rinse surface and wipe clean with a thick damp cloth. Apply a thin coating of liquid shortening to prevent surface from rusting.

INGREDIENTS:

The primary ingredients found in GRIDDLE KLEEN CHROME are: glycerin, water, d-glucitol, potassium, and sodium carbonates and food coloring.

CHEMICAL CHARACTERISTICS:

Appearance	Clear, Orange Liquid
Biodegradable	Yes
California Compliant	Yes
Corrosive Category	No
DEA-Free	Yes
Fragrance	None
Non-Acid	Yes
Non-Butyl	Yes
Non-Flammable	Yes
NPE-Free	Yes
pH.....	11.0-11.4
Phosphate-Free	Yes
VOC.....	None
