Notes & Details

Efficiently cook a variety of your signature dishes with the Avantco DC1800 drop-in / countertop induction range / cooker with remote control! Induction ranges are perfect for creating omelet, stir fry, and pasta stations at your hotel breakfast bar, buffet, or catered event. Great for front-of-the-house display cooking, this induction range eliminates the need for open flames and helps reduce the amount of heat in the room for a safer, more comfortable cooking environment. Plus, this range boasts a sleek, drop-in design for a professional look that will impress your guests.

This induction range features 1800W of heating power in a compact and convenient footprint that sits flush with your countertop for easy use. The detached remote control makes it easy to mount the controls away from customers or behind the counter for added convenience. The large LED display clearly shows important information while you cook.

Made with a durable plastic frame and a hard glass top, this range ensures long-lasting durability while providing a sleek and modern appearance. The digital temperature controls let you modify temperature in 20 degree increments from 140 to 460 degrees Fahrenheit. And because its top is made of single-piece glass, it can be cleaned by simply wiping it down at the end of a long and busy day. This unit requires a 120V electrical connection.
